Session 7: When Do I Need a New Record?

- What constitutes a major title change?
- What other situations require a new record?
- How do I close out a title that has ceased?
- How do I link records?

1

Decision Process: Determining Major Changes:

- AACR2/LCRI:
  - 21.2C (Serial title changes)
  - 21.3B (Responsible body changes for serials)
- CONSER Cataloging Manual, module 16
- Publisher really intend to change the title?
- Look at all the issues in hand
- Check in OCLC

2

Major and Minor Changes

AACR2 uses the concepts of “major change” and “minor change” as follows:

- A major change is a change that requires a new record
- A minor change does not require a new record and can be noted in the record when important

3

Major and Minor Changes

- Major changes include:
  - Major changes in title
  - Changes in corporate body main entry or corporate body uniform title qualifier, when it is part of the main entry
  - Edition statement (in some cases)
  - Physical medium
- Minor changes include:
  - Minor title changes
  - Numbering
  - Edition statement (in some cases)
  - Other changes to uniform title qualifiers

4

Changes in Title Proper

5

A Few Considerations

- Consider only the title proper ($a, $n, $p)
  - Changes to other title information do not matter!
- When considering whether a title has changed, always test it against the title proper (field 245)
  - ***Not*** against the latest variant in 246!

6

Major Title Changes

= Changes that occur in the first five words (or six when initial article)

(Note: there are many new exceptions to this rule in the minor change rule!)

The vocational guidance quarterly → Career development quarterly

Iowa historical record → Iowa journal of history

Chemical engineering and mining review → Mining & chemical engineering review

Major Title Changes

= Changes that occur after the first five words that change the meaning of the title or the scope of the serial

The best bed & breakfast in the world → The best bed and breakfast in England, Scotland, & Wales

World meetings. Social & behavioral sciences, education & management →
World meetings. Social & behavioral sciences, human services & management

8

Major Title Changes

= The name of the corporate body given in the title changes (note: the change would require a new heading)

Changes in Numbering

36

Numbering Changes = Minor!

Use 362 or 515, whichever is clearer

362 1- $a Began with volume 1, number 1 (Jan. 1960); ceased with volume 5, number 6 (June 1964); new series began with volume 1, number 1 (July 1964).

362 0- $a Vol. 1, no. 1 (Jan. 1960)-v. 5, no. 6 (June 1964) ; [new ser.], v. 1, no. 1 (July 1964)-

If new numbering scheme:

362 1- $a Began with no. 1; original numbering ended with no. 15; new numbering began with v. 1, no. 1, published in 1964.

37

Closing Out a Record

Always record the following:

008 Publication status: code as “d” (dead)

008 Ending date: code as [e.g.] 1990 (date known); 199u (decade known);or 19uu (century known); etc.

785 Link to later title

38

362 Closing Designation

There are several possibilities:

Add to existing 362 0_ [AACR2]

362 0- $a 1963-1983.

or

Add a separate unformatted note (362 1_)

362 0- $a 1963-

362 1- $a Ceased in 1983.

Be consistent with chosen method (i.e., if using "AACR2," update 260 $c, "Description based on" note, etc. accordingly)

39

Linking Records

- 780/785 linking fields most common (earlier/later titles)
- 580 linking entry complexity note:
