Session 8: Electronic Serials

- What is an electronic serial?
- What is the chief source for electronic serials?
- What fixed fields are appropriate for electronic serials?
- How do other elements of descriptive cataloging differ?

1

What is an Electronic Serial?

- Same definition applies (must have successive discrete issues or parts, numbering, no predetermined conclusion)
- LCRI 1.0 gives more guidance
- Some things may differ, however:
  - May have numbered articles
  - Numbering may be different
  - Bibliographic information may be scattered
- Many are distributed as part of aggregations

2

What is not an Electronic Serial?

The following are integrating resources:

- Updating Web sites
  - CONSER Web site
- Updating databases
  - ProQuest
- Online public access catalogs
  - OCLC Worldcat

3

Direct and Remote Access Serials

- Direct access serials are those published on a carrier, such as a disc, that is intended to be inserted into a computer.

  Examples include serials on floppy disks, CD-ROM, DVD-ROM.

- Remote access electronic serials are those accessed via the Internet, email, etc. They are commonly called online serials.

  Examples include electronic journals, newsletters, newspapers.

4

Format and Fixed Fields

- Language material:
  - 008 (continuing resources fixed field)
  - 006 (electronic resource) (1st byte “m”)
  - 007 (electronic resource physical description (1st two bytes: “c”, and “r” [for remote], or (normally) “o” [for CD-ROM])
- Programs, games, fonts, numeric data, computer-oriented multi-media online systems and services:
  - 008 (electronic resource fixed field; not CR!)
  - 006 (CR)
  - 007 (electronic resource physical description)

5

Form of Item, Original Item

- At present, CONSER is not treating any online serial as an electronic reproduction because of the difficulty of determining what the original form is.
- The current CONSER practice for coding records for textual electronic serials is:

008/23 (Form of item)	Form	s	
008/22 (Form of original)	Orig	■	(CSR)

6

CD-ROM Example: Disc Label

CD-ROM 4 covering 1972-1996
ISBN 2-503-50782-4

© Database by the International Medieval Institute, University of Leeds

© Publication rights by Brepols N.V.

7

CD-ROM: Title Screen

© Database by the International Medieval Institute, University of Leeds
© Publication rights by Brepols N.V.

8

CD-ROM: Main Menu (3 Languages)

imi Bibliography
IMB on CD-ROM

9

Basis of the Description and Chief Source

- Describe from the earliest (12.0B1)
- Prefer the carrier or its label as chief source (12.0B2)
- Other sources:
  - Title screen or other internal sources
  - Accompanying information
  - Container

10

Main Entry and Added Entries

Same as for print equivalent:

Print version:

245 00 $a International medieval bibliography.

CD-ROM version:

245 10 $a International medieval bibliography
$h [electronic resource].

11

Title Statement

- Title transcribed from chief source
- Add GMD $h [electronic resource]
- Make added entries in 246 for variant titles found in other internal or external sources
- Always add a note on title source (with DBO):

  500 -- $a Description based on …; title from disc label.

12

Our Example So Far:

245 00 $a International medieval bibliography
$h [electronic resource].

246 13 $a IMI bibliography

246 1- $i English menu screen has title: $a IMB on CD-ROM

246 1- $i German menu screen has title: $a IMB auf CD-ROM

246 1- $i French menu screen has title: $a IMB sur CD-ROM

500 -- $a Description based on CD-ROM 4 (covering 1972-1996); title from disc label.

13

Edition Statement

- Edition statements:

  250 -- $a CD-ROM ed.

- Note if source not same as title proper:

  250 -- $a Compact disc ed.
  500 -- $a Ed. statement from user's guide.

- Note: field 256 (computer file characteristics) is not used for serials

14

Publication Information

- Place and publisher same as for print equivalents
- Publication dates are not required in $c

  260 -- $a [Leeds, England] : $b International Medieval Institute : $b Brepols Publishers

- Retrospective discs may be published out of chronological order

  362 1- $a Began with 1892/1992.
  500 -- $a First published in 1989; retrospective disc for 1892/1992 issued in 1993.

15

Physical Description: Required $a only for Discs, etc.

- Extent of item ($a required) contains SMD for the type of electronic resource as given in AACR2 9.5B
- Conventional terminology may be used:

  300 -- $a CD-ROMs
  300 -- $a DVD-ROMs
  300 -- $a floppy disks

- Sound and color ($b not required):

  300 -- $a CD-ROMs : $b col.
  300 -- $a floppy disks : $b sd., col

16

Physical Description: Optional $c

- Diameter of the disc (or disk), as specified in AACR2 9.5D

  CD-ROMs & DVD-ROMs:

  300 -- $a CD-ROMs ; $c 4 3/4 in.
  300 -- $a DVD-ROMs ; $c 4 3/4 in.

  Floppy disks:

  300 -- $a floppy disks ; $c 3 1/2 in.

- In our example, the 300 field would look like:

  300 -- $a CD-ROMs ; $c 4 3/4 in.

17

Numbering

- If information regarding the first issue is available:

  362 1- $a Began with disc 1 (1785/1979).
  500 -- $a Description based on first issue; title from disc label.

- A “Description based on” note is always used:

  500 -- $a Description based on CD-ROM 4 (1972/1996); title from disc label.

18

Required Notes

- Source of title
- “Description based on”
- “Latest issue consulted” if applicable:
  500 -- $a Latest issue consulted: Disc 8 (1979/2000).
- System requirements:
  538 -- $a System requirements: Windows Vista.
- Our example:
  538 -- $a System requirements: Windows XP.

19

System Requirements

Multiple platforms (2 notes):

538 -- $a System requirements for Windows: Microsoft Windows XP or later.

538 -- $a System requirements for Macintosh: MAC OS X v10.4 or later.

20

           $w …
```

21

Remote Access Electronic Serials

- Resources issued in designated parts for an indefinite period *in electronic format*
- Typically accessed by means of a browser via the Internet
- No physical carrier

22

Types of Online Serials

- Reproductions, republications, simultaneous editions of print titles
  - Issued by original print publisher, a contracted third party or as part of a digital library project
- E-serials "born digital," that is, originally published online
  - Some of these may later appear in cumulated print format

23

Types of Online Serials

Titles that are part of a database of aggregated titles:

- May vary in completeness of reproduction and coverage of issues
- May be the most predominant type of e-serial that libraries purchase and need to control

24

Aggregator/Provider-Neutral Record

CONSER/OCLC guidelines:

- If no record exists (and not using single record approach): create a record
  - Based on publisher Web site if readily available or on the version you have
- If a record exists, use that record (even though it might not represent the aggregator/provider you have)
  - Add your URL (if authorized or report addition to OCLC)

25

Aggregator/Provider-Neutral Record

CONSER/OCLC guidelines:

- For existing records, do not add notes, added entries, etc. for the aggregator/provider
- If multiple records exist:
  - Select one (prefer CONSER record)
  - Add your URL
  - Report duplicates to OCLC

26

Online E-Serial Example

Journal home page at: http://mason.gmu.edu/~hcr/

WELCOME TO THE HISPANIC CULTURE REVIEW

We are happy to present the Web edition of our three latest issues of the Hispanic Culture Review, a review published one or two times a year by students of George Mason University. Its many issues have introduced essays, fiction and poetry written in English or Spanish focusing on topics related to the Hispanic world. We hope that you will enjoy our on-line issues and we are looking forward to your correspondence.

Make checks or money orders payable to: Hispanic Culture Review and mail to:

Volume III, Number 1.
Spring 1996

I. CRITIQUE

La Novela de Caballería

HERALDO FALCONÍ: *El retablo de la libertad de Melisendra: Entre hedonismo y ascetismo*
SANDRO A. PATRUCCO: *Gigantes y caballeros en las páginas de la novela caballeresca española*

Sources of Information

Basis of the description

- First or earliest issue for:
  - Title and statement of responsibility (245)
  - Edition (250)
  - Beginning numbering/date if available (362)
  - Item described (500 “Description based on”)
  - Publication information (260, $a, $b)
- Other issues or parts for:
  - Series
  - Notes (e.g., Latest issue consulted)
  - Standard number and availability

29

Chief Source of Information

- 9.0B1: The chief source of information for electronic resources is the resource itself. Take the information from formally presented evidence (e.g. title screen(s), main menus, program statements, initial display(s) of information, home page(s), the file header(s) …
- If the information presented in these sources varies in degree of fullness, prefer the source that provides the most complete information.
- So the source of title proper should be the most complete presentation of title (AACR2 9.0B1) in conjunction with the first or earliest available issue (AACR2 12.0B1).

30

Main and Added Entries

- Make decisions about 1XX main entry and 7XX added entries as you would any serial
- Uniform title only for generic titles and monographic series:

130 0- $a Monthly bulletin (Reserve Bank of Zimbabwe : Online)
245 10 $a Monthly bulletin $h [electronic resource].

On record for print version:
130 0- $a Monthly bulletin (Reserve Bank of Zimbabwe)
245 10 $a Monthly bulletin.

31

Aggregator/Provider Names

- Per the aggregator-neutral guidelines don't include the name of an aggregator/provider as part of:
  - uniform titles
  - 550 issuing body notes
  - 710's
  - 4XX/8XX series statements/series added entries
- The record will represent all online versions of the title

32

Title Added Entries

- Be liberal with title variants in field 246; there may be many variants on an online serial

- For the aggregator-neutral record, make added entries for title variants on other provider versions with the wording:

246 1- $i Issues from some providers have title: $a [Title]

33

Title Proper

- Construct as for print. Note provision in 1.1B1 to omit introductory words, such as “welcome to”

- Add GMD $h [electronic resource] (same as with direct access)

- Always: DBO note with source of title, source of description (provider), and date the resource was viewed for cataloging

500 -- $a Description based on issue 4 (May 2007); title from table of contents screen (JSTOR, viewed Oct. 27, 2007).

34

Title Proper

More title source notes:

500 -- $a Description based on first issue; title from contents screen (publisher's Website, viewed Jan. 27, 1999).

500 -- $a Description based on Vol. 5, no. 1 (Jan. 1995); title from contents page (Eastview, viewed June 10, 2003).

35

Edition Statement

- Example: 250 -- $a Web ed.
- Generally don't consider separate file formats to be separate editions, e.g., articles of a serial available both as HTML and PDF formatted documents.

36

Numbering

- If first issue is available or known:
  245 00 $a Serial title X
  362 1- $a Began with v. 1, no. 1 (Jan. 1995).

- If beginning/ending numbering of the print version is known:
  245 00 $a Serials title Y
  362 1- $a Print began with vol. 3, no. 1 (Jan. 1984).

37

Numbering

DBO note, whether first issue is available or not

First issue not known/available:

500 -- $a Description based on: Vol. 3, no. 1 (spring 1996); title from contents screen (publisher's Web site, viewed Jan. 27, 1999).

First issue available:

362 1- $a Began with Band 10, Nummer 12 (Mai 2005).
500 -- $a Description based on first issue; title from PDF title page (Springer, viewed Oct. 10, 2006).
500 -- $a Latest issue consulted: Band 14, Nummer 24 (Okt. 2007) (viewed Nov. 23, 2007).

38

Numbering

FF: Date 1: 2006

362 1- $a Print began with volume 1, number 1 (Aug. 2006).

500 -- $a Description based on v. 10, no. 2 (Feb. 2007); title from PDF title page (Eastview, viewed Nov. 10, 2007).

500 -- $a Latest issue consulted: vol. 15, no. 3 (Aug. 2007) (viewed Nov. 10, 2007).

39

Our Example So Far

245 00 $a Hispanic culture review $h [electronic resource].

246 1- $i Title on home page: $a Welcome to Hispanic culture review

500 -- $a Description based on v. 3, no. 1 (spring 1996); title from contents screen (publisher's Web site, viewed Jan. 27, 1999).

40

Notes

Required:

500 -- $a Description based on …; title from … ([provider], viewed [date]).
538 -- $a Mode of access: [if available other than via the World Wide Web]
550 -- $a Issued by: …, [date-] [Interim: for new corp. body]
776 08 $i … version: $t [Title]

41

Electronic Location and Access (856)

Internet access:

856 40 $u
http://www.chinfo.navy.mil/navpalib/navnews/navnews.html

Email access:

856 00 $z email subscription $u
mailto:listproc@air.harvard.edu $i subscribe $f mini-air

42

Electronic Location and Access (856)

- Note that the second indicator provides information on the relation of the address (URL) to the item being described.

  -0 = resource being described
  -1 = version of resource
  -2 = related resource

- When a portion of the resource is available online, use 2nd indicator 0 and $3

  856 40 $3 Table of contents and selected articles
  $u http://www.viam.com/

43

Multiple records (print version)

In the record for the print:

- Note the availability of the online version in field 530 or $i of 776
- Add a 730 title added entry when the title of the online version differs
- Link to the online record with field 776
- Provide the location of the online version in field 856 (if not already present in the record)

44

Multiple Records (print version)

Type a ELvl Srce d GPub Ctrl Lang eng

45

Multiple Records (online version)

In the record for the online version:

- Describe the online version using all appropriate fields
- It is not required to add a 730 title added entry when the title of the online version differs, since it will duplicate the 776 linking field.
- Link to the paper record using field 776 with $i linking note.
- Give appropriate 856 fields

46

Multiple Records (online version)

```

49

Summary

- Base the description on the first online issue or disc/disk
- Always give DBO plus title source note
- Online serials:
  - prefer the source for the title that has the most complete information
  - Include aggregator/provider information *only in* source of title note for online serials
  - Give electronic location (856)
  - Single or separate record approach?
- Direct-access serials: Prefer the carrier and its labels as chief source for direct access

50
