

Session 7: When Do I Need a New Record?

- What constitutes a major title change?
- What other situations require a new record?
- How do I close out a title that has ceased?
- How do I link records?

Decision Process for Determining Major Title Changes

- See AACR2: 21.2C1, 21.2C2a-b, 21.3B, and related LCRIs
- Did the publisher really intend to change the title?
- Look at all the issues in hand
- Check in cooperative cataloging databases such as OCLC

Major and Minor Changes

AACR2 uses the concepts of “major change” and “minor change” as follows:

- A major change is a change that requires a new record
- A minor change does not require a new record and can be noted in the record when important

Major and Minor Changes

- Major changes include:
 - Major changes in title
 - Changes in corporate body main entry or corporate body uniform title qualifier, when it is part of the main entry
 - Edition statement (in some cases)
 - Physical medium
- Minor changes include:
 - Minor title changes
 - Numbering
 - Edition statement (in some cases)
 - Other changes to uniform title qualifiers

Changes in Title Proper

A Few Considerations

- Consider only the title proper (\$a, \$n, \$p)
 - Changes to other title information do not matter!
- When considering whether a title has changed, always test it against the title proper (field 245)
 - *Not* against the latest variant in 246!

Major Title Changes

= Changes that occur in the first five words (or six when initial article)

(Note: there are many new exceptions to this rule in the minor change rule!)

The vocational guidance quarterly → Career development quarterly

Iowa historical record → Iowa journal of history

Chemical engineering and mining review → Mining & chemical engineering review

Major Title Changes

= Changes that occur after the first five words that change the meaning of the title or the scope of the serial

The best bed & breakfast in the world → The best bed and breakfast in England, Scotland, & Wales

World meetings. Social & behavioral sciences, education & management →

World meetings. Social & behavioral sciences, human services & management

Major Title Changes

= The name of the corporate body given in the title changes (note: the change would require a new heading)

Reports of the Institute of **High Speed Mechanics**,
Tohoku University

Reports of the Institute of **Fluid Science**, Tohoku
University

Minor Title Changes

- AACR2 21.2C2b lists 9 categories of minor changes
- Some of these are exceptions to the major change rule
- Three of these are new:
 - Change in corporate body at beginning of title (category iii)
 - Words in a list (category viii)
 - Words denoting type of resource (category ix)

Minor Title Changes

Includes 9 provisions:

- Category i. Representation of a word
- Category ii. Articles, prepositions, conjunctions
- Category iii. Name of corporate body
- Category iv. Punctuation
- Category v. Order of titles (parallel titles)
- Category vi. Words linking to numbering
- Category vii. Fluctuating titles
- Category viii. Words in a list
- Category ix. Words that denote type of resource

Minor Title Changes: Category i

= Changes in the representation of a word or words

- Includes case, plural vs. singular, spelled out vs. abbrev., space vs. hyphen, etc.
- Now also includes acronyms and initialisms vs. full form

Examples of Category i

Openhouse → Open house

Africa news → African news

Fishery report → Fisheries report

Saint Paul report → St. Paul reporter

Los Angeles woman → LA woman

ADC electronic news → ADC e-news

Minor Title Changes: Category iii

- Name of *same* corporate body is:
 - added or dropped anywhere in the title
 - Or parts of the hierarchy are added/dropped
 - Or the form of the name is changed (e.g., from full to abbreviated form)
- Also included:
 - Names of officials
 - Recipients of reports

Examples of Category iii

London → Bantam's London

ONS newsletter → Newsletter

Amalgamated Engineering Union monthly → AEU monthly

Department of Forestry annual report → Forestry Department annual report

Biennial report → Biennial report to the Governor and Legislature

But not:

Europe through the back door → Rick Steve's Europe through the back door

Minor Title Changes: Category viii

- Addition to, deletion from, or change in the order of words in a list anywhere in the title, provided that there is no significant change in the subject matter
- LCRI: consider a list to consist of at least 3 or more terms.

Examples of Category viii

Quarterly returns of trade for the ports of
Jenchuan, Chinnampo, Kunsan, Mokpo,
Fusan, Masampo, Wonsan, and Songchin

Quarterly returns of trade for the ports of
Chemulpo, Chinnampo, Kunsan, Mokpo,
Fusan, Masampo, Wonsan, and Songchin

Examples of Category viii

Cook's business directory covering
Canberra—special new section, Northern
Territory, West Australia, Queensland,
Tasmania, New South Wales, Victoria,
South Australia, New Zealand

Cook's business directory covering
Canberra—special section, Northern
Territory, Tasmania, Queensland, South
Australia, West Australia, Victoria, New
South Wales, New Zealand

Minor Title Changes: Category ix

- Addition or deletion anywhere in the title of words that indicate the type of resource such as “magazine,” “journal,” or “newsletter”
- Note: consider also changes in the placement of such words
- Not included:
 - changes from one word to another
 - words that indicate frequency

Examples of Category ix

Outlook → Outlook magazine → Outlook

Active projects → Active projects report

Brasileiras & brasileiros → Jornal brasileiras & brasileiros

Organic chemistry review → Organic chemistry →
Review of organic chemistry

But not:

Atlantic → Atlantic monthly

SFRA review → SFRA newsletter

Biennial report → Annual report

Other Minor Title Changes

- Category ii: Article, preposition, or conjunction is added, deleted, or changed anywhere in the title
 - Annual report of pipeline safety → Annual report on pipeline safety
- Category iv: The only change is one of punctuation
 - GBB → G.B.B.

Other Minor Title Changes

- Category v: changes in the order of titles when there are parallel titles

South African medical journal = Suid Afrikaanse tydskrif vir geneeskunde

changes to:

Suid Afrikaanse tydskrif vir geneeskunde =
South African medical journal
- However, if the title chosen as title proper is dropped, consider the change to be major

Other Minor Title Changes

- Category vi: Words linking the title to the numbering are added, deleted, changed
 - Annual report 2000
 - Annual report for 2001
- Category vii: Fluctuating, short duration, flip-flops

245 00 Daily gleaner.

246 1- \$i Sunday issues have title: \$a Sunday gleaner

Other Major Changes

- Corporate bodies as main entry headings and as qualifiers in uniform title main entry headings
- Physical medium
- Edition statement

Changes in Corporate Body Main Entry

Corporate Body Main Entry Changes

Changes in the main entry that require a new heading are major changes:

Record 1: 110 2- \$a International Harvester Company.

Changes in Physical Medium

Major Changes

Changes that involve the overall medium in the GMD (245 \$h) or the SMD (300 \$a) are considered to be major:

130 0- \$a Serials directory (Birmingham, Ala.)

245 14 \$a The serials directory : \$b an international reference book.

Continued by:

130 0- \$a Serials directory (Birmingham, Ala. : CD-ROM ed.)

245 04 \$a The serials directory \$h [electronic resource].

Minor Changes

Changes that do not occur at the level of the GMD (245 \$h) or SMD (300 \$a) are considered to be minor

- E.g., for electronics serials: file formats, physical details such as sound, motion, etc.
- E.g., for microforms: reduction ratio, generation

Changes in Edition Statement

Edition Statement

- Changes in the edition statement that indicate a change in the subject matter or physical medium are major; other changes are minor
 - Major: North American ed. → North and Central American ed.
 - Minor: Doctor's ed. → Physician's ed.

Changes in Numbering

Numbering Changes = Minor!

When numbering system (field 362) repeats and the serial does not use “new series,” “second series,” etc. supply according to CSR guidelines or to 12.3G.

362 1- \$a Began with volume 1, number 1 (Jan. 1960); ceased with volume 5, number 6 (June 1964); new series began with volume 1, number 1 (July 1964).

362 0- \$a Vol. 1, no. 1 (Jan. 1960)-v. 5, no. 6 (June 1964) ; [new ser.], v. 1, no. 1 (July 1964)-

If new numbering scheme:

362 1- \$a Began with no. 1; original numbering ended with no. 15; new numbering began with v. 1, no. 1, published in 1964.

Closing Out a Record

- Always record the following:

008 Publication status: code as “d” (dead)

008 Ending date: code as [e.g.] 1990 (date known); 199u (decade known); or 19uu (century known); etc.

785 Link to later title

Closing Out a Record

- For tangible serials:
Add number of bibliographic volumes if known:
300 -- \$a 36 v.
300 -- \$a 52 discs
- Record the following if known (AACR2 practice):
260: closing date in subfield “c” if last piece in hand:
... \$c 1978-1996.

362 Closing Designation

There are several possibilities:

Add to existing 362 0_
362 0- \$a 1963-1983.

or

Add a separate unformatted note (362 1_)
362 0- \$a 1963-
362 1- \$a Ceased in 1983.

Be consistent with chosen method (i.e., if using “previous rules”, update 260 \$c, DBO, etc. accordingly)

Linking Records

- 780/785 linking fields most common (earlier/later titles)

- 580 linking entry complexity note:

580 -- \$a Continues a print publication with the same title.

Summary

- Most major changes involve title changes
- There are three new minor change rules which will reduce the number of new records needed
- Other changes involve corporate bodies, physical media, edition
- Once a major change has occurred, the old record is closed off and linked to the new record
- Fields 780/785 are used to link records with major changes

Session 7: Exercises

In part A, indicate whether the change is major or minor according to the rules given below. The emphasis in this section is simply on recognizing when a new record is required.

In part B, complete the abbreviated workforms to indicate the tagging and coding of the relevant bibliographic data. The emphasis in this section is on either closing out the old record and tagging and coding the bibliographic data in the new record or editing an existing record.

From AACR2:

If a major change occurs in the title proper of a serial, make a new entry.

21.2C2. Definition of major and minor title changes for serials

a) **Major changes.** In general, consider as a major change in a title proper of a serial the addition, deletion, change, or reordering of any of the first five words (the first six words if the title begins with an article) unless the change belongs to one or more of the categories listed in 21.2C2b.

Consider also as a major change the addition, deletion, or change of any word after the first five words (the first six words if the title begins with an article) that changes the meaning of the title or indicates a different subject matter.

Also consider as a major change in title proper a change in a corporate body name given anywhere in the title if it is a different corporate body.

b) **Minor changes.** In general, consider the following to be a minor change in a title proper of a serial:

- i) a difference in the representation of a word or words anywhere in the title (e.g., one spelling vs. another; abbreviated word or sign or symbol vs. spelled-out form; arabic numeral(s) vs. roman numeral(s); numbers or dates vs. spelled-out form; hyphenated words vs. unhyphenated words; one-word compounds vs. two-word compounds, whether hyphenated or not; an acronym or initialism vs. full form; or a change in grammatical form (e.g., singular vs. plural))
- ii) the addition, deletion, or change of articles, prepositions, or conjunctions anywhere in the title
- iii) a difference involving the name of the same corporate body and elements of its hierarchy or their grammatical connection anywhere in the title (e.g., the addition, deletion, or rearrangement of the name of the same corporate body or the substitution of a variant form)
- iv) the addition, deletion, or change of punctuation, including initialisms and letters with separating punctuation vs. those without separating punctuation, anywhere in the title

- v) a different order of titles when the title is given in more than one language in the chief source of information, provided that the title chosen as title proper still appears as a parallel title
- vi) the addition, deletion, or change of words anywhere in the title that link the title to the numbering
- vii) two or more titles proper used on different issues of a serial according to a regular pattern
- viii) the addition to, deletion from, or change in the order of words in a list anywhere in the title, provided that there is no significant change in the subject matter
- ix) the addition, deletion, or rearrangement anywhere in the title of words that indicate the type of resource such as “magazine,” “journal,” or “newsletter” or their equivalent in other languages.

In case of doubt, consider the change to be a minor change.

Session 8: Electronic Serials

- What is an electronic serial?
- What is the chief source for electronic serials?
- What fixed fields are appropriate for electronic serials?
- How do other elements of descriptive cataloging differ?

What is an Electronic Serial?

- Same definition applies (must have successive discrete issues or parts, numbering, no predetermined conclusion)
- LCRI 1.0 gives more guidance
- Some things may differ, however:
 - May have numbered articles
 - Numbering may be different
 - Bibliographic information may be scattered
- Many are distributed as part of aggregations

What is not an Electronic Serial?

The following are integrating resources:

- Updating Web sites
CONSER Web site
- Updating databases
ProQuest
- Online public access catalogs
OCLC Worldcat

Direct and Remote Access Serials

- Direct access serials are those published on a carrier, such as a disc, that is intended to be inserted into a computer. Examples include serials on floppy disks, CD-ROM, DVD-ROM.
- Remote access electronic serials are those accessed via the Internet, email, etc. They are commonly called online serials. Examples include electronic journals, newsletters, newspapers.

Format and Fixed Fields

- Language material:
 - 008 (serial fixed field)
 - 006 (electronic resource) (1st byte “m”)
 - 007 (electronic resource physical description (1st two bytes “c” and normally “o” [CD-ROM])
- Programs, games, fonts, numeric data, computer-oriented multi-media online systems and services:
 - 008 (electronic resource fixed field; not serial!)
 - 006 (serial)
 - 007 (electronic resource physical description)

Form of Item, Original Item

- At present, CONSER is not treating any online serial as an electronic reproduction because of the difficulty of determining what the original form is.
- The current CONSER practice for coding records for textual electronic serials is:

008/23 (Form of item)	Form:	s
008/22 (Form of original)	Orig:	■ (CSR)

Basis of the Description and Chief Source

- Describe from the earliest (12.0B1)
- Prefer the carrier or its label as chief source (12.0B2)
- Other sources:
 - Title screen or other internal sources
 - Accompanying information
 - Container

Main Entry and Added Entries

Same as for print equivalent:

Print version:

245 00 \$a International medieval bibliography

CD-ROM version:

245 10 \$a International medieval bibliography
\$h [electronic resource].

Title Statement

- Title transcribed from chief source
- Add GMD \$h [electronic resource]
- Make added entries in 246 for variant titles found in other internal or external sources
- Always add a note on title source (with DBO):
500 -- \$a Description based on ...; title from disc label.

Our Example So Far:

245 00 \$a International medieval bibliography
\$h [electronic resource].

246 13 \$a IMI bibliography

246 1- \$i English menu screen has title: \$a IMB on

246 1- \$i French menu screen has title: \$a IMB sur
CD-ROM

500 -- \$a Description based on CD-ROM 4 (covering
1972-1996); title from disc label.

Edition Statement

- Edition statements:

250 -- \$a CD-ROM ed.

- Note if source not same as title proper:

250 -- \$a Compact disc ed.

500 -- \$a Ed. statement from user's guide.

- Note: field 256 (computer file characteristics)
is not used for serials

Publication Information

- Place and publisher same as for print equivalents
- Publication dates are not required in \$c
260 -- \$a [Leeds, England] : \$b International Medieval

300 -- \$a DVD-ROMs ; \$c 4 3/4 in.

Floppy disks:

300 -- \$a floppy disks ; \$c 3 1/2 in.

- In our example, the 300 field would look like:

300 -- \$a CD-ROMs ; \$c 4 3/4 in.

Numbering

- If information regarding the first issue is available:

362 1- \$a Began with disc 1 (1785/1979).

500 -- \$a Description based on first issue;
title from disc label.

- A “Description based on” note is always used:

500 -- \$a Description based on CD-ROM 4
(1972/1996); title from disc label.

Required Notes

- Source of title
- “Description based on”
- “Latest issue consulted” if applicable:
500 -- \$a Latest issue consulted: Disc 8

Remote Access Electronic Serials

- Resources issued in designated parts for an indefinite period *in electronic format*
- Typically accessed by means of a browser via the Internet
- No physical carrier

Types of Online Serials

- E-serials “born digital,” that is, originally published online
 - Some of these may later appear in cumulated print format
- Reproductions, republications, simultaneous editions of print titles
 - Issued by original print publisher, a contracted third party or as part of a digital library project

Types of Online Serials

Titles that are part of a database of aggregated titles:

- May vary in completeness of reproduction and coverage of issues
- May be the most predominate type of e-serial that libraries purchase and need to control

Aggregator-Neutral Record

CONSER/OCLC guidelines:

- If no record exists (and not using single record approach): create a record
 - Based on publisher Web site if readily available or on the version you have
- If a record exists, use that record (even though it might not represent the aggregator you have)
 - Add your URL (if authorized or report addition to OCLC)

Aggregator-Neutral Record

CONSER/OCLC guidelines:

- For existing records, do not add notes, added entries, etc. for the aggregator/provider
- If multiple records exist:
 - Select one (prefer CONSER record)
 - Add your URL
 - Report duplicates to OCLC

WELCOME TO THE HISPANIC CULTURE REVIEW

We are happy to present the Web edition of our three latest issues of the Hispanic Culture Review, a review published one or two times a year by students of George Mason University. Its many issues have introduced essays, fiction and poetry written in English or Spanish focusing on topics related to the Hispanic world. We hope that you will enjoy our on-line issues and we are looking forward to your correspondence.

I. CRITIQUE

La Novela de Caballería

HERALDO FALCONÍ: *El retablo de la libertad de Melisendra: Entre hedonismo y ascetismo*

SANDRO A. PATRUCCO: *Gigantes y caballeros en las páginas de la novela caballeresca española*

Sources of Information

Basis of the description

– First or earliest issue for:

- Title and statement of responsibility (245)
- Edition (250)
- Beginning numbering/date if available (362)
- Item described (500 DBO)
- Publication information (260, \$a, \$b)

– Other issues or parts for:

- Series
- Notes (e.g., Latest issue consulted)
- Standard number and availability

Chief Source of Information

- 9.0B1: The chief source of information for electronic resources is the resource itself. Take the information from formally presented evidence (e.g. title screen(s), main menus, program statements, initial display(s) of information, home page(s), the file header(s) ...
- If the information presented in these sources varies in degree of fullness, prefer the source that provides the most complete information.
- So the source of title proper should be the most complete presentation of title (AACR2 9.0B1) in conjunction with the first or earliest available issue (AACR2 12.0B1).

Main and Added Entries

- Make decisions about 1XX main entry and 7XX added entries as you would any serial
- Uniform title only for generic titles and monographic series:

130 0 \$a Monthly bulletin (Reserve Bank of Zimbabwe :
Online)

245 10 \$a Monthly bulletin \$h [electronic resource].

On record for print version:

130 0 \$a Monthly bulletin (Reserve Bank of Zimbabwe)

245 10 \$a Monthly bulletin.

Aggregator/Provider Names

- Per the aggregator-neutral guidelines don't include the name of an aggregation as part of:
 - uniform titles
 - 550 issuing body notes
 - 710's
 - 4XX/8XX series statements/series added entries
- The record will represent all online versions of the title

Title Added Entries

- Be liberal with title variants in field 246; there may be many variants on an online serial
- For the aggregator-neutral record, make added entries for variants on other provider versions with the wording:

246 1 \$i Issues from some providers have title: \$a [Title]

Title Proper

- Construct as for print. Note provision in 1.1B1 to omit introductory words, such as “welcome to”
- Add GMD \$h [electronic resource] (same as with direct access)
- Always: DBO note with source of title, source of description (provider), and date the resource was viewed for cataloging

500 \$a Description based on issue 4 (May 2007); title from table of contents screen (JSTOR, viewed Oct. 27, 2007).

Title Proper

- More title source notes:

- 500 \$a Title from contents screen
(publisher's Website, viewed Jan. 27, 1999).
- 500 \$a Description based on Vol. 5, no. 1
(Jan. 1995); title from contents (OCLC
FirstSearch, viewed June 10, 2003).

Edition Statement

- Example: 250 -- Web ed.
- Generally don't consider separate file formats to be separate editions, e.g., articles of a serial available both as HTML and PDF formatted documents.

Numbering

- If first issue is online:

362 1 \$a Began with v. 1, no. 1 (Jan. 1995).

- If beginning/ending numbering of the print version is known:

362 1 \$a Print began with vol. 3, no. 1 (Jan. 1984).

Numbering

DBO note, whether first issue is available or not

First issue not known/available:

500 \$a Description based on: Vol. 3, no. 1 (spring 1996); title from contents screen (publisher's Web site, viewed Jan. 27, 1999).

First issue available:

362 1 \$a Began with Band 10, Nummer 12 (Mai 2005).

500 \$a Description based on first issue; title from PDF title page (Springer, viewed Oct. 10, 2006).

500 \$a Latest issue consulted: Band 14, Nummer 24 (Okt. 2007) (viewed Nov. 23, 2007).

Numbering

FF: Date 1: 2006

362 1- \$a Print began with volume 1, number 1 (Aug. 2006).

500 – \$a Description based on v. 10, no. 2 (Feb. 2007); title from PDF title page (Eastview, viewed Nov. 10, 2007).

500 – \$a Latest issue consulted: vol. 15, no. 3 (Aug. 2007) (viewed Nov. 10, 2007).

Our Example So Far

245 00 \$a Hispanic culture review \$h [electronic resource].

246 1 \$i Title on homepage: \$a Welcome to Hispanic culture review

500 -- \$a Description based on v. 3, no. 1 (spring 1996); title from contents screen (publisher's Website, viewed Jan. 27, 1999).

Notes

- Required:

500 \$a Description based on ...; title from ... ([provider], viewed [date]).

538 \$a Mode of access: [if available other than via the World Wide Web]

550 \$a Issued by: ..., [date-] [Interim: for new corp. body]

776 08 \$i ... version: \$t [Title]

- Local options:

506 – Restrictions on Access Note

Institution-specific information should not be given on shared records

516 – Type of Computer file or Data Note

Not often used on shared record for titles in aggregator packages because this data can vary.

Summary

- Base the description on the first online issue or disc/disk
- Always give DBO plus title source note
- Online serials:
 - prefer the source for the title that has the most complete information
 - Include aggregator/provider information *only* in source of title note for online serials
 - Give electronic location (856)
 - Single or separate record approach?
- Direct-access serials: Prefer the carrier and its labels as chief source for direct access

Session 8: Exercises

Part A. What is an electronic serial? For exercises 1 and 2 decide whether this resource would or would not be cataloged as a serial and give your reasons why.

Exercise 1.

Cover pictures on the archive page are hot links to issues.

Home page: the magazine of classic 20th century popular culture
February 1999 issue 2 · volume 4

RETRO

Archive page: March/April 1996

Exercise 2.

There are no individual issues. News stories and fishing reports are updated daily, weekly, etc.

Home page:

Alaska Outdoor Journal.com

Alaska's only real-time Internet magazine!

Part B. Description of electronic serials

Examples 1 through 3:

Use the workforms provided in Appendix D to record the cataloging data from the information provided in the following pages.

1. Select the chief source;
2. transcribe and tag the title proper;
3. select and tag a main entry, if any;
4. make any title added entries thought useful;
5. record the appropriate designations;
6. make any notes thought appropriate;
7. and, add the 856 URL information.

Example 4:

This magazine exists in both a print and an online version. Catalog the title using both the two record approach and the single record approach.

Call for submissions page:

Cultronix invites submissions for our fifth issue, titled "Position/Possession". *Cultronix 5* will attempt to map the intersections of position and possession. We see this as necessary in the case of the Internet, which has been territorialized using spatial metaphors (like web, highway, network, mall, community, market, and frontier), to quietly reproduce a preexisting structure on a new imaginary space without public critical inquiry. This issue might include submissions on copyright, disperse communities, spams, censorship... Articles that discuss how these cultural geographies understand the world in terms of property (including intellectual property) are especially encouraged. Questions or discussions of the utility, boundaries or limits of this topic are welcome on our [mailing list](#). Submissions may be in plain-text, formatted text, graphics, audio, video or interactive multimedia. About Retro page:

What is RETRO?

RETRO is an online magazine that celebrates classic popular culture of the first three-fourths of the 20th century. We feature articles on vintage personalities, politics, music, media & entertainment, fashion, design, decorating and a whole lot more.

RETRO is written for people who are vintage period enthusiasts. We strive to take a lighthearted, informative approach to the classics of 20th century popular culture and style. And we search hard for the offbeat instead of the mainstream. We firmly believe that quality never goes out of style. Our mission is to help people enjoy life more in the present by grooving on the finest of the past.

How do I subscribe to your print magazine?

There is no print version of RETRO. RETRO is 100% online and electronic. And it's free.

How can I tell what's new?

A new issue of RETRO, with new feature articles, is posted the first of each month. The Table of Contents always shows what's new -- it's the best place to look.

{material omitted}

How can I contact RETRO?

You can send us [e-mail](#) by clicking on the button at the bottom of each web page, or send directly to hey@retroactive.com. Our snail mail address is P.O. Box 636, Nokomis, FL, 34274. We always welcome your feedback and suggestions.

Session 9: What is the Serial About?

- How does subject cataloging for serials differ from monographs?
- How many subject headings are appropriate?
- How do I go about assigning subject headings?
- How are serials classified?

Subject Headings

- Assign headings for the whole serial, not for a single issue
 - May need to review the general scope of the serial to be sure that headings are broad enough
- Typically 1-3 subject headings in standard records
- Most important subject comes first and relates to call number

Subject Headings

- Assign more than one heading when there is more than one predominant topic

Example: South African review of books

650 -0 \$a South African literature (English) \$y 20th century \$v Book reviews \$v Periodicals.

651 -0 \$a South Africa \$v Book reviews \$v Periodicals.

Strategies for Assigning Subjects

For title changes:

- Same subject headings as in the old title record
- Evaluate the headings:

Labor and laboring classes (no longer valid)
use:

Working class
Labor movement
and/or Labor

- Add new headings if scope has been expanded

Strategies for Assigning Subjects

- Look at the contents page, scope statements in a masthead, editorial commentary, instructions to authors, etc. for key words and phrases
- Search your OPAC
- Use significant words from the title

Special Cases: Annual Reports, etc.

- When corporate body is subject, give in 610
- Give also a topical heading if report covers activities on a topic
 - 245 10 \$a Annual report of the Library of Congress.
 - 610 20 \$a Library of Congress \$v Periodicals.
 - 650 0- \$a Libraries \$z United States \$v Periodicals.
- Do not give topical heading to reflect the body itself

Special Cases: Place Name in Title

- Use a geographical heading or subdivision if the serial focuses on activities in that place
 - e.g., Seattle magazine is about Seattle and the Pacific Northwest
651 0 \$a Seattle (Wash.) \$v Periodicals
651 0 \$a Pacific Northwest \$v Periodicals
- Do not use the geographical heading if the place is just that of publication and the scope is broader
 - e.g., *New England journal of medicine* is not limited to medicine in New England
650 0 \$a Medicine \$v Periodicals.

Form Subdivisions

\$v Periodicals (most common)

\$v Catalogs

\$v Congresses

\$v Directories

LC Classification

In some cases, the schedules require assigning a second cutter after a generic serial cutter:

Example: T57.6.A1

650 -0 \$a Technology \$x Research \$v Periodicals

- T57.6-97 Operations research. Systems analysis [H R B L D S]
Cf. QA402-402.37 Analytical methods connected with physical problems
- T57.6.A1 Periodicals, societies, etc [H R B L D S]
- T57.6.A2-Z General works [H R B L D S]

Cuttering Serials

- Successive work letters for corporate main entry:
RA997.U48a United States. Congress...
Nursing home care in the ...
RA997.U48b United States. Congress...
Annual report of the ...
- Successive Cutters for translations:
Z6723.U5 Military review (English original)
Z6723.U52 Military review (Portuguese ed.)
Z6723.U53 Military review (Spanish ed.)
- Otherwise, cutter by main entry (usually title)

Summary

- Assign at least one subject heading unless subject is too general
- Assign headings to cover the scope of the whole serial, not any one issue
- Classification is usually based on the first subject heading
- Cutters are assigned based on the main entry

Session 9: Exercises

Part A is appropriate for workshops where the sessions on original cataloging were not given or as more examples that can be used once part B is done.

Part B allows those who did the original cataloging sessions to complete their records with subject headings.

Chose as many subject headings as seem called for by the information provided. Indicate tags, indicators, and subfielding as necessary.

Example 1

The sole issue you have in hand is dedicated to the wines of Bordeaux.

130	0-	Wine (London, England : 1986)
