

CATALOGING SOUND RECORDINGS: MONOGRAPHIC CATALOGING (using OCLC Connexion Client)

(rev. June 2005)

In general, follow AACR2r and LCRI chapter 6 when cataloging sound recordings.

REQUIRED FIELDS/SUBFIELDS (in order):

Field	Example	Notes: [See for more information: OCLC documentation (“additional resources”); AACR2r & LCRI chap. 6].
Type	Type: i OR Type: j	i: nonmusical sound recording. Use for sound effects; bird calls; physical exercise recordings that consist of spoken, shouted, sung, or chanted instructions over musical accompaniment; stories read over incidental music accompaniment; and plays with incidental music. j: musical sound recording.
006	[doesn’t apply very often; see OCLC documentation for examples]	Code for characteristics of an item that cannot be coded in the fixed field. Use also to code the characteristic of accompanying material. For example, use it to code for a book that accompanies a sound recording. To create 006: Edit: Field 006: Insert: Books [etc.]: (Fill in appropriate categories): [O.K.] To edit 006: Edit: Field 006: Edit: (Fill in appropriate categories): [O.K.] Warning: do not code the 006 directly

008 (fixed field elements)	Examples unique to sound recordings: Type: i OR j (see above) Lang: N/A Comp: [2-letter code] DtSt: p	Mandatory: BLvl, Dates, Desc, DtSt, Elvl, Lang, Srce, Type Required if applicable: Ctrl, Ctry, MRec UCLA also uses: Comp If a score has no sung or spoken text, use Lang: N/A. Comp: Form of Composition: Indicates the form of composition of musical sound recordings. See OCLC bibliographic formats and standards for list of 2-letter codes. Using DtSt: p: Code “p” indicates that both a date of distribution/release/issue and a date of production/recording session are present because there is a difference between the two dates. Add a 518 note to give details about the date of production/recording session. [Date in 260 reflects date of distribution/release/issue].
