Foreword to the First Edition

The Basic Serials Cataloging Workshop was the first course developed by the Serials Cataloging Cooperative Training Program, a program inaugurated in 1998 under the auspices of the CONSER Program. Since its release in 1999, the workshop has been given in numerous venues throughout the United States and has been translated into Spanish, French, and Chinese for workshops presented in Mexico, Canada, and Taiwan. The success of this course has led to the development of other workshops and today, in 2002, there are four courses with a fifth under development. SCCTP has also been hailed as a “best practice” for continuing education of librarians.

The enthusiasm and commitment of so many to this program attests to the great need for training in the area of serials cataloging. I am very grateful to the members of the SCCTP Steering Committee, to those who have helped fund the Program: NASIG, AMIGOS, SOLINET, and PALINET, and most particularly to Cameron Campbell for his expertise and hard work in developing this very thorough course in basic serials cataloging. Thanks are also extended to the many SCCTP trainers who have brought their experience and talents to presenting this course.

Over the years since its development, the course has been revised several times. The 2002 revision reflects the 2002 revision of AACR2. In addition to revising the content, the format of the course has been revised to reflect the use of PowerPoint as the basis for the trainee and instructor manuals and distribution in PDF format. Course contents have also been expanded in some cases based on suggestions from experienced trainers. I want to thank Les Hawkins, Ann Ercelawn, Steve Shadle, and Valerie Bross for their very useful comments and suggestions.

Further course materials may be developed based on demand as expressed on the evaluation sheet in Appendix I. It is hoped that SCCTP will branch out into distance learning, mentoring, and other forms of learning as the program matures.

This workshop was designed to be given by SCCTP trained-trainers; however, anyone familiar with serials cataloging can use the materials to provide training for others. They can also be used for self-study. Comments on the materials are most welcome.

Preface

The materials in this manual are organized into nine sessions; all but session one have exercises. Some sessions are optional and portions of others are optional. Any given workshop may include all the topics or only a portion of them. Even if some material is not used in the workshop you attend, the material may prove useful reading at a later time.

Each session may start with a brief warm up exercise and will conclude with a summary of the major points presented and references to relevant CONSER documentation. Exercises have also been provided for sessions two through nine to reinforce the major points covered in the preceding material.

At the end of each workshop we ask that you fill out a brief evaluation form. This will be most helpful in refining and re-working the training materials as well as their presentation. Your help in this is appreciated.

1

Workshop goals

- Identify serials and distinguish them from monographs and integrating resources
- Become familiar with MARC 21 tags used for serials
- Create original serials cataloging records
- Identify “appropriate” serial copy and needed edits
- Introduce the cataloging of electronic serials

2

Session 1: Introduction

- Where do serials fit in the world of continuing resources?
- How does serials cataloging differ from the cataloging of monographs and integrating resources?
- What are the current conventions and practices?
- What tools are available?

3

Serials, Seriality, and Continuing Resources

- Serials are one category of “continuing resource”
- Integrating resources are the other category
- Both exhibit *seriality* because they are issued or updated over time and can change
- They are issued in a different manner and thus, the cataloging rules for them differ

4

Representation of Bibliographic Resources in AACR2

Finite resources

Monographs

Updates remain discrete

Continuing resources

Serials

Integrating resources

Updates do not remain discrete

5

Serial Cataloging Records

- Reflect the whole publication
- Are dynamic because they incorporate changes over time
- Are cooperative creations (e.g., one library may create the record, another may update it)
- Are important to the overall control of the serial and often are essential to other records (holdings, check-in)

6

Successive Entry Cataloging

- Convention applied to all serials cataloged according to AACR2
- Any major change results in the creation of a new (successive) record
- Records are linked using 780/785 fields

7

A Many to Many Relationship

11

Summary

- Serials are one type of *continuing resource*
- Serials are dynamic publications that exhibit many variations over the course of their publication history
- There are many useful tools in print and online to assist serials catalogers

12

Session 2: What is a Serial?

- What is the definition of a serial?
- What are the common characteristics of serials?
- What types of publications are or are not typically cataloged as serials?
- What MARC tags are most commonly used for serials?

1

Dictionary Definition of Serial

A publication issued as one of a consecutively numbered and indefinitely continued series.

2

Definition of a Serial

A continuing resource

- issued in a succession of discrete parts
- usually bearing numbering
- that has no predetermined conclusion

3

Important Elements of the Definition

- Succession of discrete parts (necessary)
- Numbering (usually)
- No predetermined conclusion (necessary)

4

Also Treat as Serials:

Publications of limited duration (AACR2 12.0A)

- Have similar characteristics and functions of serials but have a predetermined conclusion
- Examples: Newsletters from conferences, quarterly reports of projects, etc.

5

Identifying Characteristics

- ISSN:
1096-6919
0895-495X
- Frequency in title:
AB Bookman's weekly
Annual report of the Academy of Sciences
of Estonia
Yachting monthly

6

Identifying Characteristics

- Enumeration/chronology:
Volume 28
Vol. 32, No. 10 September 1997
Spring 1997
1998-1
- Year(s) of coverage:
1997 (item published in 1998)
... for the fiscal year 1995
... covering the period July 1978 through
June 1979

7

Identifying Characteristics

- Intent to continue publishing:
Preface:
*The inaugural issue of Advances in the Theory of
Computation and Computational Mathematics ... Future
volumes of ATCCM ...*
- Certain titles:
Advances in accounting
Developments in aging
Progress in theoretical organic chemistry
Trends in African linguistics

8

Non-serials: Monographs (print)

- Books issued in parts (fascicles)
- Cartographic materials (most)
- Censuses
- Encyclopedias
- Hearings
- Five-year plans

9

Non-serials: Integrating Resources

- Updating Web sites
- Updating online databases
- Updating loose-leafs

10

Special Types of Resources

Frequently issued editions:

Catalog as a serial only when published every year or two; otherwise treat as monograph

11

Special Types of Resources

Conference publications

- Catalog as serial if it fits the definition
The 48th Annual Meeting of the National Athletic Trainer's Association

Conference Proceedings, Animal Transportation Association 17th International Conference,
September 29-October 2, 1991
- Do not catalog as a serial if there are distinctive titles or conference is in a numbered series

12

Conference Publications

Split treatment:

500 -- \$a Issues for 1993-1995 conferences cataloged separately. \$5 [NUC symbol]

500 -- \$a Beginning with the 5th conference, issues are cataloged separately. \$5 [NUC symbol]

or

590 -- \$a Issues for 1993-1995 conferences cataloged separately.

590 -- \$a Beginning with the 5th conference, issues are cataloged separately.

13

Resources Issued in Loose-leaf Format

- Catalog as serial if:
 - Resource is a serial whose successive issues are stored in a binder
 - Base volume is regularly issued (e.g., annual with updates during the year)
- Catalog as an integrating resource if:
 - Updates are interfiled and base volume is irregularly revised

14

Supplements

Supplements may be separately cataloged as serials when they have their own title and/or numbering

Opportunity Magazine
Vol. 1, no. 1 (Jan. 1923)-

The Annual Buyers' Guide of \$uccess \$ecrets
1997-

Public Health Reports
Vol. 11, no. 1 (Jan. 3, 1896)-v. 85, no. 12
(Dec. 1970)

Supplement ... to the Public Health Reports
No. 1-no. 213

15

Reprints of Serials

Catalog as serials unless the reprint includes only a single issue or a collection of unrelated serials

Serial: Black Mountain review. Reprint, with an introduction added, of a publication issued (quarterly 1954, annually 1955-1957) in Black Mountain, N.C. by the Black Mountain College and edited by Robert Creely.

Monograph: Prague spring. A collection of articles from newspapers published in Czechoslovakia during the years 1966-1968.

16

Monographic Series

Series may be cataloged as a serial or each issue of the series may be cataloged separately

**Abraham Lincoln
The First American**

By Gordon B. Baldwin

**Historical Bulletin No. 42
Lincoln Fellowship of Wisconsin**

24

Summary

- Three criteria for serials: successive parts, numbering, no predetermined conclusion
- Certain resources require special considerations relating to access, control, etc.
- When unsure, review LCRI 1.0, search for records on databases, consider the needs of your library
- MARC tags for serials include special note fields and linking fields

Basis of the Description: Which Issue?

- The first issue (if available)
 - 362 1- \$a Began with v. 1, no. 1 (May 2002).
 - [Traditional practice:]
 - 362 0- \$a Vol. 1, no. 1 (May 2002)-
- The earliest available issue
- Always state source of description
 - 500 -- \$a Description based on v. 14, no. 3 (Dec. 1998).
 - 500 -- \$a Description based on first issue.

12

Traditional Practice: Pre-CSR

- If cataloging from first issue:
 - 362 0- Formatted numbering statement
 - No 500 “Description based on” note
- If not cataloging from first issue:
 - No 362 0- Formatted numbering statement
 - 500 “Description based on” note
- If not cataloging from first issue, *but* have information about it:
 - 362 1- Unformatted numbering statement (note)
 - 500 “Description based on” note

13

For Example ...

Have first issue:

362 0- \$a Vol. 1, no. 1 (Jan. 2001)-

Don't have first issue:

500 -- \$a Description based on Vol. 1, no. 2
(Apr. 2001).

Don't have first issue, *but* have information about it:

362 1- \$a Began with v. 1, no. 1 (Jan. 2001).
500 -- \$a Description based on Vol. 1, no. 2
(Apr. 2001).

14

Chief Source: What Source Within the Issue?

- Title page
- Title page substitutes (preferred order):
 - analytical title page (for series)
 - cover
 - caption
 - masthead
 - editorial pages
 - colophon
 - other pages
- Note chief source (even if title page)
 - Combine with “Description based on” note:
Description based on first issue; title from cover.
Description based on Jan. 2003; title from t.p.

15

Main Entry

Decision process:

- Does it fit one of the categories in AACR2 21.1B2?
- If not, what is the title?
- Does this record need a uniform title?

16

AACR2 Chapter 21.1B2

Categories Most Often Used for Serials

Works of an administrative nature (Category A)

-- e.g., annual reports and directories

Collective thought of a body (Category C)

-- e.g., Reports of commissions

Collective activity of a body (Category D)

-- e.g., Conference proceedings

Main Entry

- Entry under corporate body:
 - 110 2- \$a International Centre for Settlement
of Investment Disputes.
 - 245 10 \$a Annual report / \$c ICSID.
- Entry under title (most common):
 - 245 00 \$a Look Japan.
 - 245 00 \$a Adobe magazine.

18

Uniform Title Main Entry (LCRI 25.5B)

- Optional (CSR):
130 0- \$a Network (Bristol, England)
245 10 \$a Network.

130 0- \$a Network (Friends of the Earth)
245 10 \$a Network.
- Required (even for CSR):
130 0- \$a Bulletin (Florida Orange Growers)
245 10 \$a Bulletin.

130 0- \$a Bulletin (Friends of the Earth)
245 10 \$a Bulletin.

19

Main Entry

- Entry under personal author (rare):
100 1- \$a Gresham, Don.
245 14 \$a The country music newsletter.

20

Title Proper: 245 \$a, \$n, \$p

- Title proper includes subfields \$a (title), \$n (numbering of section), and \$p (name of section)
 - Importance of the title proper:
 - used to determine major changes
 - used in links
- 245 00 \$a OAH newsletter.
- 245 04 \$a The bookman. \$n Part B.
- 245 00 \$a Journal of physics. \$n E,

30

Summary

- Base the description on the chief source of the first or earliest available issue in hand
- The chief source is the title page or its substitute (cover, caption, etc.)
- Most serials are entered under title
- Uniform titles are sometimes used to distinguish different serials with the same title (entered under title)
- Record the title proper as it appears on the chief source, except for capitalization, punctuation and omissions
- Record other title information when considered useful
- There are important differences between the CONSER Standard Record and former practice

31

Session 3: Exercises

Use the workforms provided in Appendix D to record the cataloging data from the information provided in the following pages.

Use Appendix G for MARC tagging (don't worry about the indicators).

1. Select the chief source;
2. transcribe and tag the title proper;
3. select and tag a main entry, if any;
4. make any title added entries thought useful; and
5. indicate any other title-related notes needed (i.e., source of title, description based on, latest issue consulted)

Summary

- Be careful with “editions”
- Record numbering information in 362
- Record a source of title note even if it is the title page
- Always supply a “Description based on” note
- Notes should be useful and not too detailed

Session 4: Exercises

Complete the workforms used in the exercises for Session 3 by adding the following cataloging data:

1. Publication information;
2. frequency;
3. designations, if appropriate;
4. additional notes thought appropriate; and
5. other added entries thought appropriate.

Session 5: Working with Copy: Finding Appropriate Records

How do I identify the "most appropriate" serial record?

- Is it the same publication?
- Is it for the right physical format?
- Do the dates fit?
- Is the record AACR2?
- How authoritative is the record?

Session 6: Working with Copy: What to Edit?

- Which edits are critical?
- Which edits are needed for access?
- Which edits are needed for serials control?
- How do I edit a pre-AACR2 record?
- How do I edit a pre-CSR record?
- What doesn't need to be changed?

1

Criteria for Editing Copy

- Local decision
- Report the desired change to your utility?
- Added value for end users and processing staff
- Other fields may need editing:
 - Input standards for local system and utility
 - Deriving reports from your system

2

Keep in Mind ...

- Do not edit records to conform to new standard
- Do not delete data unless incorrect
- Records may contain a mix of old and new practices (as always)
- Watch out for consolidation of CONSER records

3

Categories of Maintenance

Do Not Edit:

- "Minor" changes in place of publication that do not affect the 008 fixed field coding for Country of Publication; e.g., changes in city, but not state or country of publication
- Numerous numbering peculiarities (515 fields)
- Variations in subtitle or other title information

31

Summary

- Compare the pieces in hand with copy selected to determine whether changes have occurred
- Limit editing to:
 - **Critical edits (major changes, etc.)**
 - **Fields that affect access**

Session 6: Exercises

Part A

Compare the bibliographic information to data on the issues received. Modify copy following the CONSER Standard Record guidelines.

Part B

Compare the bibliographic information about the issue in hand given in the following pages with the copy provided and indicate any editing necessary. The copy may not include all MARC tags.

Part C

Edit the copy provided to indicate cessations based on the information provided.

Part A.

Instructions: Below and on the left are segments from existing catalog records cataloged according to the CONSER Standard Record guidelines. On the right-hand side are the issues received by your library. How would you modify the existing catalog record following the CONSER Standard Record guidelines?

Session 7: When Do I Need a New Record?

- What constitutes a major title change?
- What other situations require a new record?
- How do I close out a title that has ceased?
- How do I link records?

1

Decision Process for Determining Major Title Changes

- Documentation
 - AACR2: 21.2C1, 21.3B (Related LCRIs)
 - CONSER Cataloging Manual, module 16
- Did the publisher really intend to change the title?
- Look at all the issues in hand
- Check in OCLC

2

Major and Minor Changes

AACR2 uses the concepts of “major change” and “minor change” as follows:

- A major change is a change that requires a new record
- A minor change does not require a new record and can be noted in the record when important

3

Major and Minor Changes

- Major changes include:
 - Major changes in title
 - Changes in corporate body main entry or corporate body uniform title qualifier, when it is part of the main entry
 - Edition statement (in some cases)
 - Physical medium
- Minor changes include:
 - Minor title changes
 - Numbering
 - Edition statement (in some cases)
 - Other changes to uniform title qualifiers

4

Changes in Title Proper

5

A Few Considerations

- Consider only the title proper (\$a, \$n, \$p)
 - Changes to other title information do not matter!
- When considering whether a title has changed, always test it against the title proper (field 245)
 - *Not* against the latest variant in 246!

6

Major Title Changes

= Changes that occur in the first five words (or six when initial article)

(Note: there are many new exceptions to this rule in the minor change rule!)

The vocational guidance quarterly → Career development quarterly

Iowa historical record → Iowa journal of history

Chemical engineering and mining review → Mining & chemical engineering review

Major Title Changes

= Changes that occur after the first five words that change the meaning of the title or the scope of the serial

The best bed & breakfast in the world → The best bed and breakfast in England, Scotland, & Wales

World meetings. Social & behavioral sciences, education & management →

World meetings. Social & behavioral sciences, human services & management

Major Title Changes

= The name of the corporate body given in the title changes (note: the change would require a new heading)

Reports of the Institute of **High Speed Mechanics**,
Tohoku University

Reports of the Institute of **Fluid Science**, Tohoku
University

9

Minor Title Changes

- AACR2 21.2C2b (CCM 16.2.4) lists 9 categories of minor changes
- Some of these are exceptions to the major change rule

10

Minor Title Changes

Includes 9 provisions:

- Category i. Representation of a word
- Category ii. Articles, prepositions, conjunctions
- Category iii. Name of corporate body
- Category iv. Punctuation
- Category v. Order of titles (parallel titles)
- Category vi. Words linking to numbering
- Category vii. Fluctuating titles
- Category viii. Words in a list
- Category ix. Words that denote type of resource

11

Minor Title Changes: Category i

Changes in the representation of a word or words

- Includes case, plural vs. singular, spelled out vs. abbrev., space vs. hyphen, etc.
- Now also includes acronyms and initialisms vs. full form

12

Examples of Category i

Openhouse → Open house
Africa news → African news
Fishery report → Fisheries report
Saint Paul report → St. Paul report
Los Angeles woman → LA woman
ADC electronic news → ADC e-news

13

Minor Title Changes: Category iii

- Name of *same* corporate body is:
 - added or dropped anywhere in the title
 - Or parts of the hierarchy are added/dropped
 - Or the form of the name is changed (e.g., from full to abbreviated form)
- Also included:
 - Names of officials
 - Recipients of reports

14

Examples of Category iii

London → Bantam's London

ONS newsletter → Newsletter

Amalgamated Engineering Union monthly → AEU monthly

Department of Forestry annual report → Forestry Department
annual report

Biennial report → Biennial report to the Governor and
Legislature

BUT NOT: Europe through the back door → Rick Steves
Europe through the back door

15

Minor Title Changes: Category viii

- Addition to, deletion from, or change in the order of words in a list anywhere in the title, provided that there is no significant change in the subject matter
- LCRI: consider a list to consist of at least 3 or more terms.

16

Examples of Category viii

Quarterly returns of trade for the ports of
Jenchuan, Chinnampo, Kunsan, Mokpo,
Fusan, Masampo, Wonsan, and Songchin

Quarterly returns of trade for the ports of
Chemulpo, Chinnampo, Kunsan, Mokpo,

18

Minor Title Changes: Category ix

- Addition or deletion anywhere in the title of words that indicate the type of resource such as “magazine,” “journal,” or “newsletter”
- Note: consider also changes in the placement of such words
- Not included:
 - changes from one word to another
 - words that indicate frequency

19

Examples of Category ix

Outlook → Outlook magazine → Outlook

Active projects → Active projects report

Brasileiras & brasileiros → Jornal brasileiras & brasileiros

Organic chemistry review → Organic chemistry →
Review of organic chemistry

BUT NOT:

Atlantic → Atlantic monthly

SFRA review → SFRA newsletter

Biennial report → Annual report

Other Minor Title Changes

- Category ii: Article, preposition, or conjunction is added, deleted, or changed anywhere in the title
 - Annual report of pipeline safety → Annual report on pipeline safety
- Category iv: The only change is one of punctuation
 - GBB → G.B.B.

21

Other Minor Title Changes

- Category v: changes in the order of titles when there are parallel titles

South African medical journal = Suid Afrikaanse tydskrif vir geneeskunde

changes to:

Suid Afrikaanse tydskrif vir geneeskunde = South African medical journal
- However, if the title chosen as title proper is dropped, consider the change to be major

22

Other Minor Title Changes

- Category vi: Words linking the title to the numbering are added, deleted, changed
 - Annual report 2000
 - Annual report for 2001
- Category vii: Fluctuating, short duration, flip-flops

245 00 Daily gleaner.

246 1- \$i Sunday issues have title: \$a Sunday gleaner

23

Other Major Changes

- Corporate bodies as main entry headings and as qualifiers in uniform title main entry headings
- Physical medium
- Edition statement
(e.g. geographic editions)

24

Changes in Corporate Body Main Entry

25

Corporate Body Main Entry Changes

Changes in the main entry that require a new heading are major changes:

Record 1: 110 2- \$a International Harvester Company.
245 10 \$a Annual report
785 00 \$a Navistar International

26

Changes in Uniform Title Qualifiers

27

Major Change: Corporate Body Qualifier (generic title)

Record 1: 130 0- \$a Technical bulletin (Illinois. Dept. of
Conservation)

245 10 \$a Technical bulletin

785 00 \$t Technical bulletin (Illinois. Division

30

Changes in Physical Medium

31

Major Changes

Generally, changes that involve medium (GMD, 245 \$h) and/or the SMD (300 \$a) are considered to be major:

130 0- \$a Serials directory (Birmingham, Ala.)

245 14 \$a The serials directory : \$b an international reference book.

Continued by:

130 0- \$a Serials directory (Birmingham, Ala. : CD-ROM ed.)

245 14 \$a The serials directory \$h [electronic resource].

300 \$a CD-ROMs

Minor Changes

Changes that do not occur at the level of the GMD (245 \$h) or SMD (300 \$a) are considered to be minor

- E.g., for electronics serials: file formats, physical details such as sound, motion, etc.
- E.g., for microforms: reduction ratio, generation

33

Changes in Edition Statement

34

Edition Statement

Changes in the edition statement that indicate a change in the subject matter or physical medium are major; other changes are minor

- Major: North American ed. → North and Central American ed.
- Minor: Doctor's ed. → Physician's ed.

35

Changes in Numbering

36

Numbering Changes = Minor!

Use 362 or 515, whichever is clearer

362 1- \$a Began with volume 1, number 1 (Jan. 1960); ceased with volume 5, number 6 (June 1964); new series began with volume 1, number 1 (July 1964).

362 0- \$a Vol. 1, no. 1 (Jan. 1960)-v. 5, no. 6 (June 1964) ; [new ser.], v. 1, no. 1 (July 1964)-

If new numbering scheme:

362 1- \$a Began with no. 1; original numbering ended with no. 15; new numbering began with v. 1, no. 1, published in 1964.

37

Closing Out a Record

Always record the following:

008 Publication status: code as "d" (dead)

008 Ending date: code as [e.g.] 1990 (date known); 199u (decade known); or 19uu (century known); etc.

785 Link to later title

38

362 Closing Designation

There are several possibilities:

Add to existing 362 0_ (pre-CSR)

362 0- \$a 1963-1983.

or

Add a separate unformatted note (362 1_)

362 0- \$a 1963-

362 1- \$a Ceased in 1983.

Be consistent with chosen method (i.e., if using “pre-CSR rules”, update 260 \$c, “Description based on” note, etc. accordingly)

39

Linking Records

- 780/785 linking fields most common (earlier/later titles)

- 580 linking entry complexity note:

580 -- \$a Continues a print publication with the same title.

Summary

- Most major changes involve title changes
- There are 9 (nine) minor-change “exceptions”
- Other changes involve corporate bodies, physical media, edition
- Once a major change has occurred, the old record is closed off and linked to the new record
- Fields 780/785 are used to link records with major changes

Session 7: Exercises

In part A, indicate whether the change is major or minor according to the rules given below. The emphasis in this section is simply on recognizing when a new record is required.

In part B, complete the abbreviated workforms to indicate the tagging and coding of the relevant bibliographic data. The emphasis in this section is on closing out the old record and tagging and coding the bibliographic data in the new record or editing an existing record.

From AACR2:

If a major change occurs in the title proper of a serial, make a new entry.

21.2C2. Definition of major and minor title changes for serials

a) **Major changes.** In general, consider as a major change in a title proper of a serial the addition, deletion, change, or reordering of any of the first five words (the first six words if the title begins with an article) unless the change belongs to one or more of the categories listed in 21.2C2b.

Consider also as a major change the addition, deletion, or change of any word after the first five words (the first six words if the title begins with an article) that changes the meaning of the title or indicates a different subject matter.

Also consider as a major change in title proper a change in a corporate body name given anywhere in the title if it is a different corporate body.

b) **Minor changes.** In general, consider the following to be a minor change in a title proper of a serial:

- i) a difference in the representation of a word or words anywhere in the title (e.g., one spelling vs. another; abbreviated word or sign or symbol vs. spelled-out form; arabic numeral(s) vs. roman numeral(s); numbers or dates vs. spelled-out form; hyphenated words vs. unhyphenated words; one-word compounds vs. two-word compounds, whether hyphenated or not; an acronym or initialism vs. full form; or a change in grammatical form (e.g., singular vs. plural))
- ii) the addition, deletion, or change of articles, prepositions, or conjunctions anywhere in the title
- iii) a difference involving the name of the same corporate body and elements of its hierarchy or their grammatical connection anywhere in the title (e.g., the addition, deletion, or rearrangement of the name of the same corporate body or the substitution of a variant form)
- iv) the addition, deletion, or change of punctuation, including initialisms and letters with separating punctuation vs. those without separating punctuation, anywhere in the title

- v) a different order of titles when the title is given in more than one language in the chief source of information, provided that the title chosen as title proper still appears as a parallel title
- vi) the addition, deletion, or change of words anywhere in the title that link the title to the numbering
- vii) two or more titles proper used on different issues of a serial according to a regular pattern
- viii) the addition to, deletion from, or change in the order of words in a list anywhere in the title, provided that there is no significant change in the subject matter
- ix) the addition, deletion, or rearrangement anywhere in the title of words that indicate the type of resource such as “magazine,” “journal,” or “newsletter” or their equivalent in other languages.

In case of doubt, consider the change to be a minor change.

Part A

Indicate whether the following situations constitute a major or minor change. For major changes, indicate the reason; for minor changes, the category under rule 21.2C2 that applies.

Session 8: Electronic Serials

- What is an electronic serial?
- What is the chief source for electronic serials?
- What fixed fields are appropriate for electronic serials?
- How do other elements of descriptive cataloging differ?

1

What is an Electronic Serial?

- Same definition applies (must have successive discrete issues or parts, numbering, no predetermined conclusion)
- LCRI 1.0 gives more guidance
- Some things may differ, however:
 - May have numbered articles
 - Numbering may be different
 - Bibliographic information may be scattered
- Many are distributed as part of aggregations

2

What is not an Electronic Serial?

The following are integrating resources:

- Updating Web sites
CONSER Web site
- Updating databases
ProQuest
- Online public access catalogs
OCLC Worldcat

3

Direct and Remote Access Serials

- Direct access serials are those published on a carrier, such as a disc, that is intended to be inserted into a computer.

Examples include serials on floppy disks, CD-ROM, DVD-ROM.

- Remote access electronic serials are those accessed via the Internet, email, etc. They are commonly called online serials.

Examples include electronic journals, newsletters, newspapers.

4

Format and Fixed Fields

- Language material:
 - 008 (continuing resources fixed field)
 - 006 (electronic resource) (1st byte “m”)
 - 007 (electronic resource physical description (1st two bytes: “c”, and “r” [for remote], or (normally) “o” [for CD-ROM])
- Programs, games, fonts, numeric data, computer-oriented multi-media online systems and services:
 - 008 (electronic resource fixed field; not CR!)
 - 006 (CR)
 - 007 (electronic resource physical description)

5

Form of Item, Original Item

- At present, CONSER is not treating any online serial as an electronic reproduction because of the difficulty of determining what the original form is.
- The current CONSER practice for coding records for textual electronic serials is:

008/23 (Form of item)	Form	s	
008/22 (Form of original)	Orig	■	(CSR)

9

Basis of the Description and Chief Source

- Describe from the earliest (12.0B1)
- Prefer the carrier or its label as chief source (12.0B2)
- Other sources:
 - Title screen or other internal sources
 - Accompanying information
 - Container

10

Main Entry and Added Entries

Same as for print equivalent:

Print version:

245 00 \$a International medieval bibliography.

CD-ROM version:

245 10 \$a International medieval bibliography
\$h [electronic resource].

11

Title Statement

- Title transcribed from chief source
- Add GMD \$h [electronic resource]
- Make added entries in 246 for variant titles found in other internal or external sources
- Always add a note on title source (with DBO):
500 -- \$a Description based on ...; title from disc label.

12

Our Example So Far:

245 00 \$a International medieval bibliography
\$h [electronic resource].

246 13 \$a IMI bibliography

246 1- \$i English menu screen has title: \$a IMB on
CD-ROM

246 1- \$i German menu screen has title: \$a IMB auf
CD-ROM

246 1- \$i French menu screen has title: \$a IMB sur
CD-ROM

500 -- \$a Description based on CD-ROM 4 (covering
1972-1996); title from disc label.

13

Edition Statement

- Edition statements:

250 -- \$a CD-ROM ed.

- Note if source not same as title proper:

250 -- \$a Compact disc ed.

500 -- \$a Ed. statement from user's guide.

- Note: field 256 (computer file characteristics)
is not used for serials

14

Publication Information

- Place and publisher same as for print equivalents
- Publication dates are not required in \$c
260 -- \$a [Leeds, England] : \$b International Medieval
Institute : \$b Brepols Publishers
- Retrospective discs may be published out of
chronological order
362 1- \$a Began with 1892/1992.
500 -- \$a First published in 1989; retrospective
disc for 1892/1992 issued in 1993.

15

Physical Description: Required \$a only for Discs, etc.

- Extent of item (\$a required) contains SMD for
the type of electronic resource as given in
AACR2 9.5B
- Conventional terminology may be used:
300 -- \$a CD-ROMs
300 -- \$a DVD-ROMs
300 -- \$a floppy disks
- Sound and color (\$b not required):
300 -- \$a CD-ROMs : \$b col.
300 -- \$a floppy disks : \$b sd., col

16

Physical Description: Optional \$c

- Diameter of the disc (or disk), as specified in AACR2 9.5D

CD-ROMs & DVD-ROMs:

300 -- \$a CD-ROMs ; \$c 4 3/4 in.

300 -- \$a DVD-ROMs ; \$c 4 3/4 in.

Floppy disks:

300 -- \$a floppy disks ; \$c 3 1/2 in.

- In our example, the 300 field would look like:

300 -- \$a CD-ROMs ; \$c 4 3/4 in.

17

Numbering

- If information regarding the first issue is available:

362 1- \$a Began with disc 1 (1785/1979).

500 -- \$a Description based on first issue;
title from disc label.

- A “Description based on” note is always used:

500 -- \$a Description based on CD-ROM 4
(1972/1996); title from disc label.

18

Required Notes

- Source of title
- “Description based on”
- “Latest issue consulted” if applicable:
500 -- \$a Latest issue consulted: Disc 8
(1979/2000).
- System requirements:
538 -- \$a System requirements: Windows Vista.
- Our example:
538 -- \$a System requirements: Windows XP.

19

System Requirements

Multiple platforms (2 notes):

538 -- \$a System requirements for Windows:

Remote Access Electronic Serials

- Resources issued in designated parts for an indefinite period *in electronic format*
- Typically accessed by means of a browser via the Internet
- No physical carrier

Types of Online Serials

- Reproductions, republications, simultaneous editions of print titles
 - Issued by original print publisher, a contracted third party or as part of a digital library project
- E-serials “born digital,” that is, originally published online
 - Some of these may later appear in cumulated print format

23

Types of Online Serials

Titles that are part of a database of aggregated titles:

- May vary in completeness of reproduction and coverage of issues
- May be the most predominant type of e-serial that libraries purchase and need to control

24

Aggregator/Provider-Neutral Record

CONSER/OCLC guidelines:

- If no record exists (and not using single record approach): create a record
 - Based on publisher Web site if readily available or on the version you have
- If a record exists, use that record (even though it might not represent the aggregator/provider you have)
 - Add your URL (if authorized or report addition to OCLC)

25

Aggregator/Provider-Neutral Record

CONSER/OCLC guidelines:

- For existing records, do not add notes, added entries, etc. for the aggregator/provider
- If multiple records exist:
 - Select one (prefer CONSER record)
 - Add your URL
 - Report duplicates to OCLC

I. CRITIQUE

La Novela de Caballería

HERALDO FALCONÍ: *El retablo de la libertad de Melisendra: Entre hedonismo y ascetismo*

SANDRO A. PATRUCCO: *Gigantes y caballeros en las páginas de la novela caballeresca española*

Sources of Information

Basis of the description

– First or earliest issue for:

- Title and statement of responsibility (245)
- Edition (250)
- Beginning numbering/date if available (362)
- Item described (500 “Description based on”)
- Publication information (260, \$a, \$b)

– Other issues or parts for:

- Series
- Notes (e.g., Latest issue consulted)
- Standard number and availability

29

Chief Source of Information

- 9.0B1: The chief source of information for electronic resources is the resource itself. Take the information from formally presented evidence (e.g. title screen(s), main menus, program statements, initial display(s) of information, home page(s), the file header(s) ...
- If the information presented in these sources varies in degree of fullness, prefer the source that provides the most complete information.
- So the source of title proper should be the most complete presentation of title (AACR2 9.0B1) in conjunction with the first or earliest available issue (AACR2 12.0B1).

30

Main and Added Entries

- Make decisions about 1XX main entry and 7XX added entries as you would any serial
- Uniform title only for generic titles and monographic series:

130 0- \$a Monthly bulletin (Reserve Bank of Zimbabwe :
Online)

245 10 \$a Monthly bulletin \$h [electronic resource].

On record for print version:

130 0- \$a Monthly bulletin (Reserve Bank of Zimbabwe)

245 10 \$a Monthly bulletin.

31

Aggregator/Provider Names

- Per the aggregator-neutral guidelines don't include the name of an aggregator/provider as part of:
 - uniform titles
 - 550 issuing body notes
 - 710's
 - 4XX/8XX series statements/series added entries
- The record will represent all online versions of the title

32

Title Added Entries

- Be liberal with title variants in field 246; there may be many variants on an online serial
- For the aggregator-neutral record, make added entries for title variants on other provider versions with the wording:

246 1- \$i Issues from some providers have title: \$a [Title]

33

Title Proper

- Construct as for print. Note provision in 1.1B1 to omit introductory words, such as “welcome to”
- Add GMD \$h [electronic resource] (same as with direct access)
- Always: DBO note with source of title, source of description (provider), and date the resource was viewed for cataloging

500 -- \$a Description based on issue 4 (May 2007); title from table of contents screen (JSTOR, viewed Oct. 27, 2007).

34

Title Proper

More title source notes:

500 -- \$a Description based on first issue;
title from contents screen (publisher's
Website, viewed Jan. 27, 1999).

500 -- \$a Description based on Vol. 5, no. 1
(Jan. 1995); title from contents page
(Eastview, viewed June 10, 2003).

35

Edition Statement

- Example: 250 -- \$a Web ed.

Summary

- Base the description on the first online issue or disc/disk
- Always give DBO plus title source note
- Online serials:
 - prefer the source for the title that has the most complete information
 - Include aggregator/provider information *only in* source of title note for online serials
 - Give electronic location (856)
 - Single or separate record approach?
- Direct-access serials: Prefer the carrier and its labels as chief source for direct access

Session 8: Exercises

Part A. What is an electronic serial? For exercises 1 and 2 decide whether this resource would or would not be cataloged as a serial and give your reasons why.

Example 1.

Cover pictures on the archive page are hot links to issues.

Home page: the magazine of classic 20th century popular culture
February 1999 issue 2 · volume 4

RETRO

Archive page: March/April 1996

Example 2.

There are no individual issues. News stories and fishing reports are updated daily, weekly, etc.

Home page:

Alaska Outdoor Journal.com

Alaska's only real-time Internet magazine!

Sunrise: 9:42

Last Update: 01/23/99 5:29 AM

Sunset: 4.52

Part B. Description of electronic serials

Examples 1 through 3:

Use the workforms provided in Appendix D to record the cataloging data from the information provided in the following pages.

1. Select the chief source;
2. transcribe and tag the title proper;
3. select and tag a main entry, if any;
4. make any title added entries thought useful;
5. record the appropriate designations;
6. make any notes thought appropriate; and
7. add the 856 URL information.

Note about example 4:

This magazine exists in both a print and an online version. Catalog the title using both the two record approach and the single record approach.

Publication made possible by the English Server at Carnegie Mellon.

Call for submissions page:

Cultronix invites submissions for our fifth issue, titled "Position/Possession". *Cultronix 5* will attempt to map the intersections of position and possession. We see this as necessary in the case of the Internet, which has been territorialized using spatial metaphors (like web, highway, network, mall, community, market, and frontier), to quietly reproduce a preexisting structure on a new imaginary space without public critical inquiry. This issue might include submissions on copyright, disperse communities, spams, censorship... Articles that discuss how these cultural geographies understand the world in terms of property (including intellectual property) are especially encouraged. Questions or discussions of the utility, boundaries or limits of this topic are welcome on our mailing list. Submissions may be in plain-text, formatted text, graphics, audio, video or interactive multimedia. About Retro page:

What is RETRO?

RETRO is an online magazine that celebrates classic popular culture of the first three-fourths of the 20th century. We feature articles on vintage personalities, politics, music, media & entertainment, fashion, design, decorating and a whole lot more.

RETRO is written for people who are vintage period enthusiasts. We strive to take a lighthearted, informative approach to the classics of 20th century popular culture and style. And we search hard for the offbeat instead of the mainstream. We firmly believe that quality never goes out of style. Our mission is to help people enjoy life more in the present by grooving on the finest of the past.

How do I subscribe to your print magazine?

There is no print version of RETRO. RETRO is 100% online and electronic. And it's free.

How can I tell what's new?

A new issue of RETRO, with new feature articles, is posted the first of each month. The Table of Contents always shows what's new -- it's the best place to look.

Session 9: What is the Serial About?

- How does subject cataloging for serials differ from monographs?
- How many subject headings are appropriate?
- How do I go about assigning subject headings?
- How are serials classified?

1

Subject Headings

- Assign headings for the whole serial, not for a single issue
 - May need to review the general scope of the serial to be sure that headings are broad enough
- Typically 1-3 subject headings in standard records
- Most important subject comes first and relates to call number

2

Subject Headings

- Assign more than one heading when there is more than one predominant topic

Example: South African review of books

650 -0 \$a South African literature (English) \$y 20th century \$v Book reviews \$v Periodicals.

651 -0 \$a South Africa \$v Book reviews \$v Periodicals.

3

Strategies for Assigning Subjects

For title changes:

- Same subject headings as in the old title record
- Evaluate the headings:

Labor and laboring classes (no longer valid)
use:

Working class
Labor movement
and/or Labor

- Add new headings if scope has been expanded

4

Strategies for Assigning Subjects

- Look at the contents page, scope statements in a masthead, editorial commentary, instructions to authors, etc. for key words and phrases
- Search your OPAC
- Use significant words from the title

5

Special Cases: Annual Reports, etc.

- When corporate body is subject, give in 610
- Give also a topical heading if report covers activities on a topic
 - 245 10 \$a Annual report of the Library of Congress.
 - 610 20 \$a Library of Congress \$v Periodicals.
 - 650 0- \$a Libraries \$z United States \$v Periodicals.

6

Special Cases: Place Name in Title

- Use a geographical heading or subdivision if the serial focuses on activities in that place
 - e.g., Seattle magazine is about Seattle and the Pacific Northwest
651 -0 \$a Seattle (Wash.) \$v Periodicals
651 -0 \$a Pacific Northwest \$v Periodicals
- Do not use the geographical heading if the place is just that of publication and the scope is broader
 - e.g., *New England journal of medicine* is not limited to medicine in New England
650 -0 \$a Medicine \$v Periodicals.

7

Form Subdivisions

\$v Periodicals (most common)

\$v Catalogs

\$v Congresses

\$v Directories

\$v Indexes

Subfield “v” is used to denote the form of the resource being cataloged.

8

Form Subdivisions

Examples:

Title: *Guide to religious and inspirational magazines*

650 -0 \$a Religion \$x Periodicals \$v Bibliography
\$v Periodicals.

LC Classification

In some cases, the schedules require assigning a second cutter after a generic serial cutter:

Example: T57.6.A1

650 -0 \$a Technology \$x Research \$v Periodicals

- T57.6-97 Operations research. Systems analysis [H R B L D S]
 Cf. QA402-402.37 Analytical methods connected with physical problems
- T57.6.A1 Periodicals, societies, etc [H R B L D S]
- T57.6.A2-Z General works [H R B L D S]

14

Cuttering Serials

- Successive work letters for corporate main entry:
RA997.U48a United States. Congress...
Nursing home care in the ...
RA997.U48b United States. Congress...
Annual report of the ...
- Successive Cutters for translations:
Z6723.U5 Military review (English original)
Z6723.U52 Military review (Portuguese ed.)
Z6723.U53 Military review (Spanish ed.)
- Otherwise, cutter by main entry (usually title)

15

Summary

- Assign at least one subject heading unless subject is too general
- Assign headings to cover the scope of the whole serial, not any one issue
- Classification is usually based on the first subject heading
- Cutters are assigned based on the main entry

Session 9: Exercises

Part A is appropriate for workshops where the sessions on original cataloging were not given or as more examples that can be used once part B is done.

Part B allows those who did the original cataloging sessions to complete their records with subject headings.

Chose as many subject headings as seem called for by the information provided. Indicate tags, indicators, and subfielding as necessary.

Example 1

Appendix B: Acronyms and Initialisms Relating to Serials

CONSER	Cooperative Online Serials Program. Formerly Conversion of Serials Project.
CSR	CONSER Standard Record
DCM	Descriptive Cataloging Manual. The Library of Congress in-house cataloging manual also used by members of national cooperative programs such as NACO.
FRBR	Functional Requirements for Bibliographic Records. An entity-attribute model meant to serve as a framework for examining elements of the bibliographic record and how they can be used to best create catalogs.
ISBD(CR)	International Standard Bibliographic Data—Serials and Other Continuing Resources. The ISBD(CR) is an international cataloging code of the description of continuing resources. It is developed and maintained by the International Federation of Library Associations (IFLA). It replaces ISBD(S).
ISSN	International Standard Serial Number. The ISSN is governed by the International Centre in Paris and assigned by centers in each country.
ISSN Canada	International Standard Serial Number Canada. The Canadian center responsible for assigning ISSN to Canadian imprints and located at the National Library of Canada.
LCSH	Library of Congress Subject Headings.
MAP	Metadata Application Profile
MARBI	ALA RTSD LITA RASD Committee on Representation in Machine Readable Form of Bibliographic Information.
MARC 21	Machine Readable Cataloging. Formerly USMARC
NACO	Name Authority Cooperative.
NASIG	North American Serials Interest Group, Inc.
NISO	Name Information Standards Organization. NISO began as Committee Z39 of the American National Standards Institute (ANSI).

NSDP	National Serials Data Program. NSDP is a section of the Serial Record Division, Library of Congress and is the United States center responsible for assigning ISSN to U.S. imprints.
OCLC	Online Computer Library Center.
PCC	Program for Cooperative Cataloging. CONSER is a bibliographic component along with BIBCO. NACO and SACO are authority components
RLIN	Research Libraries Information Network. The cataloging database of the Research Libraries Group (RLG).
SCCTP	Serials Cataloging Cooperative Training Program.
SICI	Serial Item and Contribution Identifier. The bar code that uniquely identifies each issue of a serial, of which the ISSN forms the first portion.
SISAC	Serials Industry Standards Advisory Committee. SISAC is a committee of the Book Industry Study Group, Inc. (BISG).
USNP	United States Newspaper Program.

Appendix C: Glossary of Serials Terms

Definitions are taken from AACR2 and/or the CONSER Cataloging Manual where possible.

Access point	A name, word, code, etc., under which a publication may be searched and identified in a catalog.
Added entry	An entry, additional to the main entry, by which an item is represented in a catalog; a secondary entry.
Added title page	A title page preceding or following the title page chosen as the basis for the description of the item. It may be more general (e.g., a series title page), or equally general (e.g., a title page in another language).
Aggregation	The action or process of collecting particles into a mass, or particulars into a whole; or of adding one particle <i>to</i> an amount; collection, assemblage, union—OED. 2 nd ed. 1989.
Aggregator (see also Provider)	An entity that collects, compiles, and enables access to resources for the purposes of research, normally via a searchable interface and on a paid-subscription basis.
Alternative numbers	A secondary system of numbering (e.g., vol. 1, no. 1 + No. 1)
Alternative title	The second part of a title proper that consists of two parts, each of which is a title; the parts are joined by "or", or its equivalent in another language.
Analytic	A catalog entry for a part of a publication for which a comprehensive entry is made. An analytic can be a title within a series, a chapter or article within a book, a series published within a larger series, etc. An analytic record can be either a monograph or a serial.
Analytical title page	The title page of an individual work in a series.
Area	A major section of the bibliographic description, comprising data of a particular category or set of categories.

Backfile	Purchase of specific volumes or issues that are lacking from the collection. They are considered "only orders" because they are single, one-time purchases.
Bibliographic resource	An expression or manifestation of a work or an item that forms the basis for bibliographic description.
Body of the entry	Areas 1-6 of the catalog record (i.e., the title statement through the series).
Caption title	A title given at the beginning of the first page of text.
Chief source of information	The source of bibliographic data to be given preference as the source from which a bibliographic description (or portion thereof) is prepared. For serials, the chief source is the title page or title page substitute of the first or earliest issue.
Chronological designation	A date, or combination of dates, numbers, or words that identifies an issue of a serial within a chronological sequence.
Chronological relationship	The relationship in time between bibliographic items (e.g., the relation of a serial to its predecessors and successors).
Claiming	The process of contacting a publisher or vendor to request supply of material missed or overdue on subscription, standing order, or backfile order.
Colophon	A statement at the end of an item giving information about one or more of the following: the title, author(s), publisher, printer, date of publication or printing. It may include other information.
Common title	A title common to two or more works, one or more of which carries the title and/or designation of a section.
Computer file	See Electronic resource.

CONSER standard record	A record that contains those bibliographic data elements identified by CONSER as essential in supporting users' efforts to find, identify, select, and obtain serial resources. These include a defined set of descriptive elements, authorized access points, and subject headings. An authenticated CONSER standard record is identified by having the encoding level "blank", a valid LCCN, and an authentication code of "lc" or "lcd."
Continuing resource	A bibliographic resource that has no predetermined conclusion.
Corporate body	An organization or group of persons that is identified by a particular name and that acts, or may act, as an entity. Typical examples of corporate bodies are associations, institutions, business firms, nonprofit enterprises, governments, government agencies and the like.
Cover date	A chronological designation that reflects the date of issuance rather than the coverage, such as the date found on the cover of magazines and periodicals.
Cover title	A title printed on the cover of an item as issued.
Coverage date	A date that reflects the coverage of the contents of the item.
Cumulation	An issue of a serial that collects all of the information given in the previous issues for a given period and is intended to replace those issues. The cumulation may rearrange, correct, or expand the contents of the original issues.
Data element	A component part of a MARC record such as a fixed or variable field.
Designation	The numeric or chronological designation or combination of both as recorded in field 362 or 500. See also Numbering.
Direct access (Electronic resources)	The use of electronic resources via carriers (e.g., disks, cassettes, and cartridges) designed to be inserted into a computer or its auxiliary equipment by the user.

Distinctive title	A title that appears in addition to the title proper, is unique to an issue, and is often related to the topic or theme of that issue.
Editorial pages	These pages are most often found in periodicals and usually contain the masthead in a boxed area. The title may be found at the head of the page.
Electronic resource	Material (date and/or program(s)) encoded for manipulation by a computerized device. This material may require the use of a peripheral directly connected to a computerized device (e.g., a CD-ROM drive) or a connection to a computer network (e.g., the Internet).
Electronic serial	A continuing resource published periodically in electronic format and distributed via computer networks or CD-ROMs, etc.
Enumeration	The scheme used by a serial publication to identify distinct issues within a numerical sequence. Common enumeration elements are: volume/no. and month/year.
Fill character	A special character used by a cataloger to indicate no attempt to set a value for a fixed field element has been made.
Fluctuating title	A title that changes back and forth on a regular or irregular basis.
Format	In its widest sense, a particular physical presentation of an item.
Heading	A name, word, or phrase placed at the head of a catalog entry to provide an access point.
Holdings	The specific issues of a serial title which a library owns.
Holdings Statement	A formalized note in a library catalog or system that summarizes the library's holdings of a serial title.

Home page	The hypertext document that serves as the "preface" for a service or publication mounted on the World Wide Web. It is normally an introductory screen that provides general information about the institution maintaining the site, or a publication or group of publications available. Hypertext links are included to access specific documents or files archived at the site.
Integrating resource	A bibliographic resource that is added to or changed by means of updates that do not remain discrete and are integrated into the whole. An integrating resource may be finite or continuing. Examples of integrating resources include updating loose-leafs and updating Web sites.
Internal numbers	Numbers within a volume that repeat with each volume (e.g., vol. 3, no. 2)
Issuing body	A corporate body that is responsible for the issuance, and often the contents, of an item but whose primary function is not that of publishing.
Item	A physical volume bound and shelved as a unit. Items can be a single publication or a group of serial issues bound together. Items carry a bar code to identify the piece for various inventory purposes.
Item record	An inventory record created for each physical volume in the Library's collection which is used by the circulation system to track circulation status, loan period, housing location, etc.
Main entry	The complete catalog record of an item, presented in the form by which the entity is to be uniformly identified and cited. The main entry may include the tracing(s).
Masthead	The masthead is the statement of title, ownership, editors, etc. It is most frequently found in periodicals and newsletters and generally appears on the editorial or contents page. In many cases the ISSN also appears with the title on the masthead.
Metadata	A set of data that describes and gives information about other data (OED online, draft revision Dec. 2007)

Metadata Application Profile (MAP)

- Rachel Heery (UKOLN): “Application profiles consist of data elements drawn from one or more namespace schemas combined together by implementers and optimized for a particular local application.”
- DCMI: “A set of metadata elements, policies, and guidelines defined for a particular application. The elements may be from one or more element sets, thus allowing a given application to meet its functional requirements by using metadata from several element sets including locally defined sets. [...]”

From: Canadian Metadata Forum. Workshop B: Application Profiles.

Monograph

A bibliographic resource that is complete in one part or is intended to be completed in a finite number of separate parts.

Multimedia item

An item containing two or more categories of material, no one of which is identifiable as the predominant constituent of the item.

Multipart item

A monograph complete, or intended to be completed, in a finite number of separate parts. The separate parts may or may not be numbered.

Newspaper

A serial publication that contains news on current events of special or general interest. The individual parts are listed chronologically or numerically and appear usually at least once a week. Newspapers usually have a masthead rather than a cover and are normally larger than A3 (297 mm x 420 mm.) in size.

Numbering

The identification of each of the successive items of a publication. It can include a numeral, a letter, any other character, or the combination of these with or without an accompanying word (volume, number, etc.) and/or a chronological designation.

Numeric designation

A number or combination of numbers, dates, letters, or words that identifies an issue of a serial within a numeric sequence.

Other title information	A title borne by an item other than the title proper or parallel or series title(s) including subtitles.
Parallel title	The title proper in another language and/or script.
Periodical	A serial published more frequently than annually. Each issue normally contains separate articles, stories or other writings.
Physical carrier	A physical medium in which data, sound, images, etc., are stored. For certain categories of material, the physical carrier consists of a storage medium (e.g., tape, film).
Predominant name	The name or form of name of a person or corporate body that appears most frequently (1) in the person's works or works issued by the corporate body, or (2) in reference sources, in that order of preference.
Provider (see also Aggregator)	An entity that collects, compiles, and enables access to resources for the purposes of research, normally via a searchable interface and on a paid-subscription basis.
Qualifier	A parenthetical word or phrase added to a corporate body heading or uniform title to distinguish the body or title from others with the same name or title.
Reciprocal relationship	The relationship between two items, as represented by paired linking fields (e.g., 780/785) or by a link with the same tag that is given in each related record (e.g., 775).
RECON	Retrospective conversion of manual cataloging records to machine readable format.
Remote access (Electronic resources)	The use of electronic resources via input/output devices connected electronically to a computer.
Reprint	1. A new printing of an item made from the original type image, commonly by photographic methods. The reprint may reproduce the original exactly (an impression) or it may contain minor but well defined variations (an issue). 2. A new edition with substantially unchanged text.
Retrospective conversion	The process of converting bibliographic records on catalog cards into machine readable form to provide access through the online catalog.

Running title	A title or abbreviated title that is repeated at the head or foot of each page or leaf.
Section	A separately published part of a bibliographic resource, usually representing a particular subject category within the larger serial and identified by a designation that may be a topic, or an alphabetic or numeric designation, or a combination of these.
Serial	A continuing resource issued in a succession of discrete parts, usually bearing numbering that has no predetermined conclusion. Examples of serials include journals, magazines, electronic journals, continuing directories, annual reports, newspapers, and monographic series.
Series	1. A group of separate items related to one another by the fact that each item bears, in addition to its own title proper, a collective title applying to the group as a whole. The individual items may or may not be numbered. 2. Each of two or more volumes
Series title page	An added title page bearing the series title proper and usually, though not necessarily, other information about the series (e.g., statement of responsibility, numeric designation, data relating to publication, title of the item within the series).
Spine title	A title appearing on the spine of an item.
Standing order	An order on which all volumes of a series are automatically received.
Statement of responsibility	A statement transcribed from the item being described, relating to persons responsible for the intellectual or artistic content of the item, to corporate bodies from which the content emanates, or to persons or corporate bodies responsible for the performance of the content of the item.
Subseries	A series within a series (i.e., a series that always appears in conjunction with another, usually more comprehensive, series of which it forms a section). Its title may or may not be dependent on the title of the main series.

Successive entry	The convention of creating a new record for a serial each time a major change occurs.
Supplement	An item, usually issued separately, that complements one already published by bringing up-to-date or otherwise continuing the original or by containing a special feature not included in the original. The supplement has a formal relationship with the original as expressed by common authorship, a common title or subtitle, and/or a stated intention to continue or supplement the original.
Supplied title	A title provided by the cataloger for an item that has no title proper on the chief source of information or its substitute. It may be taken from elsewhere in the item itself or from a reference source or it may be composed by the cataloger.
Title	A word, phrase, character, or group of characters, normally appearing in an item, that names the item or the work contained in it.
Title page	A page at the beginning of an item bearing the title proper and usually, though not necessarily, the statement of responsibility and the data relating to publication.
Title page substitutes	When a serial does not have a true title page, another page may substitute. AACR2 12.02B provides the order of preference for title page substitutes: analytical title page (for a serial issued as part of a series); cover, caption; masthead; editorial pages; colophon; other pages.
Title proper	The chief name of an item, including any alternative title but excluding parallel titles and other title information.
Title screen (Electronic resources)	In the case of a computer file, a display of data that includes the title proper and usually, though not necessarily, the statement of responsibility and the data relating to publication.
Updating loose-leaf	An integrating resource that consists of one or more base volumes updated by separate pages that are inserted, removed, and/or substituted.

Uniform title

1. The particular title by which a work is to be identified for cataloguing purposes. 2. The particular title used to distinguish the heading for a work from the heading for a different work. 3. A conventional collective title used to collocate publications of an author, composer, or a corporate body containing several works or extracts, etc., from several works (e.g., complete works, several works in a particular literary or musical form).

URL

Uniform Resource Locator. Location information of an electronic resource expressed in a standardized format, which allows for computer files to be sent and received automatically. The World Wide Web uses the URL as the basis of linking to other files and documents around the Internet.

Verso

1. The left-hand page of a book, usually bearing even page numbers. 2. The side of a printed sheet intended to be read second.

Volume title page

A page that contains the title and designation for an entire volume, rather than the designation for a specific issue. Volume title pages are often issued separately once the volume is complete.

Whole numbers

Continuous numbers that do not repeat. In addition to numbered serials, the term "whole numbers" is also used for alternative numbering schemes.

Appendix E: Pre-Workshop Exercises

Please print out the following exercises and complete as many of as you can. The purpose of these exercises is to help you determine what areas of serials cataloging you may want to pay particular attention to during the workshop.

Bring the completed exercises and any questions you may have with you to the workshop to facilitate discussion about the examples during the scheduled sessions.

Please also note that bibliographic information used in these exercises may have been altered to illustrate various points of serials cataloging practice.

Part A: Is It a Serial?

Give as many reasons as you think applicable in each case below.

Example 1:

Cover:	Today's Education The Journal of the National Education Association
Contents page:	The Annual of the National Education Association 1982-83 Volume 71, Number 3 Today's Education
Verso of contents page:	Published once a year by ... (ISSN) 0271-3573

Is this a serial? Circle one: **Yes** No

1. It has enumeration/chronology.
2. It bears an ISSN.
3. The publisher's statement of frequency indicates intent to continue indefinitely.

Example 2:

It is known that the following is issued annually.

CD-ROM label:	Who's Who in Canadian Business 17th Edition 1997 ISSN 1209-8299
---------------	--

Is this a serial? Circle one: **Yes** No

1. It bears an ISSN.
2. Editions appear frequently.

Example 3:

First issue title page:	Proceedings of the Twelfth Annual Symposium on Computational Geometry
Second issue title page:	Proceedings of the Thirteenth Annual Symposium on Computational Geometry

Is this a serial? Circle one: **Yes** No

1. Words such as "Annual" indicate this is an ongoing conference.
2. Terms like "12th" and "13th" serves as numbering.

Example 4:

Is this a serial? Circle one: **Yes** No

1. Title words such as "Trends in ..." and "Progress in ..." are usually interpreted to indicate intent to publish indefinitely.
2. It has enumeration and chronology.

Example 5:

It is known that the 3rd edition was published in 1989, the 4th edition in 1992, and the 5th edition in 1998.

Is this a serial? Circle one: Yes **No**

This title would not usually be cataloged as a serial since the editions are so infrequent.

Example 6:

title page:	Expenditures on Children by Families 1997 Annual Report UNITED STATES DEPARTMENT OF AGRICULTURE Miscellaneous Publication Number 1528-1997
-------------	---

Is this a serial? Circle one: **Yes** No

1. The title is issued annually and the date is a year of coverage.

Trainers: note that the series could also be cataloged as a serial with this title as a serial analytic.

Part B: Is A New Record Required?

Example 1:

Title 1:	Marriage and divorce statistics
New issue:	Marriage, divorce and adoption statistics

Would you create a new record? Circle one: **Yes** No

There is a change within the first five words of the title.

Example 2:

Title 1:	Organic chemistry
New issue:	Organic chemistry review

Would you create a new record? Circle one: Yes **No**

The addition of a word indicating the type of resource is considered to be a minor change.

Example 3:

Title 1:	Annual report of the President's Commission on Children for 2002
New issue:	President's Commission on Children annual report 2003

Would you create a new record? Circle on: Yes **No**

The rearrangement of the corporate body from end of title to beginning is a minor change.

Example 4:

Title 1:	Doing Business in the Czech and Slovak Republics
New issue:	Doing Business in the Czech Republic

Would you create a new record? Circle one: **Yes** No

There is no change within the first five words but the scope of the publication has changed significantly.

Example 5:

Title 1:	STATISTIQUES ÉPIDÉMIOLOGIQUES ET DÉMOGRAPHIQUES ANNUELLES
----------	--

New issue:	ANNUAL EPIDEMIOLOGICAL AND VITAL STATISTICS
	ANNUAL EPIDEMIOLOGICAL AND VITAL STATISTICS
	STATISTIQUES ÉPIDÉMIOLOGIQUES ET DÉMOGRAPHIQUES ANNUELLES

Would you create a new record? Circle one: Yes **No**

There is no need for a new record since it is only the order of the parallel titles that has changed. A 500 note would typically be added to account for this.

Example 6:

Title 1:	Architectural Review Volume 17, April 1910
New issue:	Architectural Review New Series, Volume 1, January 1912

Would you create a new record? Circle one: Yes **No**

Although the enumeration has started over from volume one, there is no change in the title. The designation includes the phrase "new series" which will be included in the 362 field when edited to reflect this change.

Example 7:

Title 1 record:	130 Historian (Kingston, R.I.) 245 The Historian. 022 ISSN 0018-2370
New issue:	The Historian ISSN 0018-2370 Now published: Allentown, PA

Would you create a new record? Circle one: Yes **No**

There is no need for a new record since it is the place of publication that has changed. This would be noted in a 500 field and the fixed field place of publication code would be updated.

Part C: Closing Out and Linking Records

Edit the cataloging data in the forms below. Add or change any data you think appropriate.

Third Edition

1. ISSN
2. 3rd ed. can serve as enumeration since we know it is issued frequently.

Example 4

Issue 1 title page:

Academic Freedom
1990
A Human Rights Report

Issue 2 title page:

Academic Freedom
2
A Human Rights Report

Issue 3 title page:

Academic Freedom 3
Education and Human Rights

The numbering changes from chronological to numeric, but there is clear numbering on each issue.

Example 5

	Issue 1	Issue 2
Cover:	Tokyo Stock Exchange 1990 FACT BOOK	Tokyo Stock Exchange 1991 FACT BOOK
Spine:	TSE 90 Fact Book	TSE 91 Fact Book

From the two pieces it is clear that the title is issued annually and that the dates are years of coverage.

Vol. t.p.: The Frank C. Brown Collection of
**North Carolina
Folklore**
IN FIVE VOLUMES
Durham, North Carolina
Duke University Press

This is a multi-part monograph complete in five volumes and not a serial.

Example 7

This is a publication of limited duration that has a stated frequency and numbering and can be treated as a serial according to 12.0A.

Example 8

This is a monograph appearing in the numbered series: Urban Affairs Annual Review. It could be cataloged either as a serial under the series title or as a monograph with a series tracing.

Session 3: Exercises

Use the workforms provided in Appendix D to record the cataloging data from the information provided in the following pages.

Use Appendix G for MARC tagging (don't worry about the indicators).

1. Select the chief source;
2. transcribe and tag the title proper;
3. select and tag a main entry, if any;
4. make any title added entries thought useful; and
5. indicate any other title-related notes needed (i.e., source of title, description based on, latest issue consulted)

Which record best fits the piece in hand? Record 1 **Record 2**

Although the title matches both records, the first record is an earlier title that ceased in 1830 while the second record is an open entry.

1. It is a serial record.
2. It is AACR2.
3. It is successive entry.
4. The dates match.
5. The ISSN matches.
6. The enumeration fits.
7. The 245 title proper matches the piece in hand

Note: These records not cataloged according to CONSER Standard Record guidelines

Session 6: Exercises

Part A

Compare the bibliographic information to data on the issues received. Modify copy following the CONSER Standard Record guidelines.

Part B*

Compare the bibliographic information about the issue in hand given in the following pages with the copy provided and indicate any editing necessary. The copy may not include all MARC tags.

Part C

Edit the copy provided to indicate cessations based on the information provided.

*Trainers please note

- (1) There are many exercises in this section; trainers should be selective.
- (2) Editing of the copy is indicated in bold face for part B. Examples 1-3 are relatively easy. Numbers 4-8 are more complicated.

Part A.

Instructions: Below and on the left are segments from existing catalog records cataloged according to the CONSER Standard Record guidelines. On the right-hand side are the issues received by your library. How would you modify the existing catalog record following the CONSER Standard Record guidelines?

Indicate which field(s) would need editing and which fields you would add to the record above.

1. Even though the city of publication has changed, the state has not so this would not be noted nor would the fixed field Country of Publication code change.
2. The cataloger familiar with the CONSER Standard Record guidelines will notice some stylistic differences: (a) Coding for the Fixed Field (Conf, Freq, Regl); (b) 260 \$c; (c) presence of 300 field; (d) formatted 362 field. However, unless the information is out of date, no modification is required.

Indicate which field(s) would need editing and which fields you would add to the record above.

1. The fixed field dates can be edited to reflect that the publisher states the beginning date in the sidebar on page six.
2. The Frequency note (310 field) should be updated to reflect the current frequency, with a \$b to show the period related to that frequency (i.e., that the serial was monthly only from some date after 1988).
3. The cataloger should preserve the previous frequency in a 321 note (as shown).
4. An unformatted 362 field can be added to reflect the beginning date.
5. The word in the 500 quoted note no longer appears on the piece but could be left in the record.
6. A Latest Issue Consulted (LIC) note indicates the issue used for cataloging.

Indicate which field(s) would need editing and which fields you would add to the record above.

1. The Encoding level can be changed to blank (if CONSER library) from "7" (Minimal level).
2. Note that that publishing statement has the abbreviated Form The Museum which is now not used. This does not need to be changed, unless you wish to do so to provide better access through the 260 field.
3. The physical description could be completed, although this is not critical. (The 300 field is not needed for CONSER Standard Record maintenance anyway.)
4. Subject headings should be added to the record.
5. The earlier title link should be checked against your catalog to see if you hold the title and if so, whether the form of the linking entry matches.

Part C

Edit the copy provided to indicate cessations based on the information provided.

Example 1:

It is known from an external source (vendor, publisher, etc.) that the title ceased publication in 1986. Volume and issue numbering are not known and the last issue in hand was published in 1985.

2. An unformatted 362 field is added to close the record.
3. A Latest Issue Consulted note could be added if cataloger had the last available issue in hand.

Example 2:

Points to mention:

1. This is a pre-AACR2 record, so cataloger would not apply CONSER Standard Record guidelines.
2. The Date Status and second Dates fixed field elements are updated.
3. Depending on local policy, could upgrade 041 coding
4. The 260 subfield c publication date is closed.
5. The number of issues is completed in the 300 subfield a, physical description field.
6. The designation is closed in the 362 field.
7. 936 deleted since record has been ceased with final issue.

Session 7: Exercises

In part A, indicate whether the change is major or minor according to the rules given below. The emphasis in this section is simply on recognizing when a new record is required.

In part B, complete the abbreviated workforms to indicate the tagging and coding of the relevant bibliographic data. The emphasis in this section is on closing out the old record and tagging and coding the bibliographic data in the new record or editing an existing record.

From AACR2:

If a major change occurs in the [title proper](#) of a serial, make a new entry.
21.2C2. Definition of major and minor title changes for serials

a) **Major changes.** In general, consider as a major change in a [title proper](#) of a serial the addition, deletion, change, or reordering of any of the first five words (the first six words if the title begins with an article) unless the change belongs to one or more of the categories listed in [21.2C2b](#).

Consider also as a major change the addition, deletion, or change of any word after the first five words (the first six words if the title begins with an article) that changes the meaning of the title or indicates a different subject matter.

Also consider as a major change in [title proper](#) a change in a [corporate body](#) name given anywhere in the title if it is a different corporate body.

b) **Minor changes.** In general, consider the following to be a minor change in a [title proper](#) of a serial:

- i) a difference in the representation of a word or words anywhere in the [title](#) (e.g., one spelling vs. another; abbreviated word or sign or symbol vs. spelled-out form; arabic numeral(s) vs. roman numeral(s); numbers or dates vs. spelled-out form; hyphenated words vs. unhyphenated words; one-word compounds vs. two-word compounds, whether hyphenated or not; an acronym or initialism vs. full form; or a change in grammatical form (e.g., singular vs. plural))
- ii) the addition, deletion, or change of articles, prepositions, or conjunctions anywhere in the title
- iii) a difference involving the name of the same [corporate body](#) and elements of its hierarchy or their grammatical connection anywhere in the title (e.g., the addition, deletion, or rearrangement of the name of the same [corporate body](#) or the substitution of a variant form)
- iv) the addition, deletion, or change of punctuation, including initialisms and letters with separating punctuation vs. those without separating punctuation, anywhere in the title

- v) a different order of titles when the title is given in more than one language in the [chief source of information](#), provided that the title chosen as title proper still appears as a [parallel title](#)
- vi) the addition, deletion, or change of words anywhere in the title that link the title to the [numbering](#)
- vii) two or more titles proper used on different issues of a [serial](#) according to a regular pattern
- viii) the addition to, deletion from, or change in the order of words in a list anywhere in the title, provided that there is no significant change in the subject matter
- ix) the addition, deletion, or rearrangement anywhere in the title of words that indicate the type of resource such as “magazine,” “journal,” or “newsletter” or their equivalent in other languages.

In case of doubt, consider the change to be a minor change.

Part A

Indicate whether the following situations constitute a major or minor change. For major changes, indicate the reason; for minor changes, the category under rule 21.2C2 that applies.

Session 8: Exercises

Part A. What is an electronic serial? For exercises 1 and 2 decide whether this resource would or would not be cataloged as a serial and give your reasons why.

Example 1.

Cover pictures on the archive page are hot links to issues.

Home page: the magazine of classic 20th century popular culture
February 1999 issue 2 · volume 4

RETRO

Archive page: March/April 1996

1. Enumeration and chronology appear on the home page and link to the current issue.
2. The March/April issue is available so there are clearly designated issues.

Example 2.

There are no individual issues. News stories and fishing reports are updated daily, weekly, etc.

Home page: **Alaska Outdoor Journal.com**
Alaska's only real-time Internet magazine!
Sunrise: 9:42 Last Update: 01/23/99 5:29 AM
Sunset: 4.52

1. This is not a serial since there are no designated issues. There is only a date of update. This is an integrating resource, despite the fact that it calls itself a journal and a magazine.

Part B. Description of electronic serials

Examples 1 through 3:

Use the workforms provided in Appendix D to record the cataloging data from the information provided in the following pages.

1. Select the chief source;
2. transcribe and tag the title proper;
3. select and tag a main entry, if any;
4. make any title added entries thought useful;
5. record the appropriate designations;
6. make any notes thought appropriate;
7. and, add the 856 URL information.

Example 4:

This magazine exists in both a print and an online version. Catalog the title using both the two record approach and the single record approach.

Call for submissions page:

Cultronix invites submissions for our fifth issue, titled "Position/Possession". *Cultronix 5* will attempt to map the intersections of position and possession. We see this as necessary in the case of the Internet, which has been territorialized using spatial metaphors (like web, highway, network, mall, community, market, and frontier), to quietly reproduce a preexisting structure on a new imaginary space without public critical inquiry. This issue might include submissions on copyright, disperse communities, spams, censorship... Articles that discuss how these cultural geographies understand the world in terms of property (including intellectual property) are especially encouraged. Questions or discussions of the utility, boundaries or limits of this topic are welcome on our mailing list. Submissions may be in plain-text, formatted text, graphics, audio, video or interactive multimedia. Contact us by e-mail or fax if you have questions about the file formats we recommend and/or can support.

About Retro page:**What is RETRO?**

RETRO is an online magazine that celebrates classic popular culture of the first three-fourths of the 20th century. We feature articles on vintage personalities, politics, music, media & entertainment, fashion, design, decorating and a whole lot more.

RETRO is written for people who are vintage period enthusiasts. We strive to take a lighthearted, informative approach to the classics of 20th century popular culture and style. And we search hard for the offbeat instead of the mainstream. We firmly believe that quality never goes out of style. Our mission is to help people enjoy life more in the present by grooving on the finest of the past.

How do I subscribe to your print magazine?

There is no print version of RETRO. RETRO is 100% online and electronic. And it's free.

How can I tell what's new?

A new issue of RETRO, with new feature articles, is posted the first of each month. The Table of Contents always shows what's new -- it's the best place to look.

Session 9: Exercises

Part A is appropriate for workshops where the sessions on original cataloging were not given or as more examples that can be used once part B is done.

Part B allows those who did the original cataloging sessions to complete their records with subject headings.

Chose as many subject headings as seem called for by the information provided. Indicate tags, indicators, and subfielding as necessary.

Example 1

The sole issue you have in hand is dedicated to the wines of Bordeaux.

130	0-	Wine (London, England : 1986)
245	00	Wine.
6	_____	_____
6	_____	_____
6	_____	_____

Choices:

1. Wine industry \$z France \$z Bordeaux \$v Periodicals.
2. Wine districts \$z France \$z Bordeaux \$v Periodicals.
3. **Wine \$v Periodicals.**

Points to mention:

The publication is about wine in general so a general subject heading is chosen.

From the portions of the schedules provided, circle the class number you think most appropriate.

Agricultural industries
Beverages. Beverage containers
HD9370-9389 Wines (Table H18)
Including viticulture
Cf. SB387+, Plant culture
Cf. TP544+, Wine making

TP544	Periodicals, societies, congresses, etc.
TP546	Dictionaries and encyclopedias
TP546.5	Directories
...	
TP549	History
TP553-559	Special countries
TP553-555	France
TP553	General works
TP555	Champagne
TP557	United States
TP559.A-Z	Other regions and countries, A-Z

Example 2

130	0 -	Aquarium (Maywood, N.J.)
245	04	The aquarium.
6	_____	_____
6	_____	_____
6	_____	_____

Choices:

1. Aquariums \$x Equipment and supplies \$v Periodicals.
2. Tropical fish \$v Periodicals.
3. Aquarium fishes \$v Periodicals.
4. **Aquariums \$v Periodicals.**

Points to mention:

The publication is about aquariums in general so a general subject heading is chosen.

From the portions of the schedules provided, circle the class number you think most appropriate.

QH68	Vivariums. Terrariums
	Cf. SB417, Glass gardens. Wardian cases
	Aquariums (Home and school), see SF456+
	Aquariums (Public), see QL78+
QH70.A1-Z	Museums. Exhibitions
	For research serial publications, see QH1+
QH70.A1	General works
QH70.A2-Z	By region or country, A-Z
	Under each country:
	.x General works
	.x2A-Z Special. By city, A-Z

	Fishes. Aquarium animals
	Including tropical fish
	Cf. QL78+, Public aquariums
SF456	Periodicals. Societies. Serials

6		

Choices:

1. Cotton \$v Periodicals.
2. **Cotton manufacture \$v Periodicals.**
3. **Textile industry \$v Periodicals.**
4. Cotton textiles \$v Periodicals.
5. Textile fabrics \$v Periodicals.

Point to mention:

The emphasis of the publication is on the industrial aspects, not the textiles themselves.

From the portions of the schedules provided, circle the class number you think most appropriate.

HD9870-9889 Cotton (Table H18)
 HD9889.A-Z Special products, A-Z
 HD9889.Y28-Y3 Yarns (Table H23)
