

Returning materials
that have been paged, checked-out, or otherwise obtained
from YRL, SRLF, or other library collections

Oct. 29, 2007
(based on email from Sara Layne)

(1) Shelves in Physical Processing:

- Only those materials paged from YRL or SRLF using procedures described on our web site at:
<http://unitproj.library.ucla.edu/cataloging/procedures/Paging%20from%20YRL2007.pdf>
and
<http://unitproj.library.ucla.edu/cataloging/procedures/Paging%20materials%20from%20SRLF.pdf>
should be returned by placing them on the designated shelves in Physical Processing

(2) LibEx Kinross mailroom:

- All other materials, including items that are charged out from YRL, should be returned using the LibEx Kinross mailroom
- If the material is charged out, place a label on it that says "UNIVERSAL RETURNS" before placing it in the appropriate bin or shelf for the collection to which it is being returned. If it is not charged out, it does not need a label
